

CAILLAUX TO STAND FIRM ON ORIGINAL DEBT OFFER

Dispatches Show Paris Indignant at "Severe Demands" of American Proposal

WASHINGTON, Sept. 27.—France will not submit a new offer at tomorrow morning's plenary session with the American Debt Funding Commission. M. Caillaux, chief of the French mission, will stand pat on his original proposals handed to Secretary of the Treasury Mellon on Thursday last.

Soviet Offers Persia Wheat as Riots Rage

TEHRAN (Persia) Sept. 27.—Bread riots in Persia, although the government is taking steps to pacify the people. It is understood that a Soviet representative here has offered the Persian government large quantities of wheat. The offer probably will be accepted, as the shortage of wheat is acute and will undoubtedly abruptly end the anti-Bolshevik policy of the Persian government.

ELEVEN IN UTAH PAROLED

SALT LAKE CITY, Sept. 27.—At the closing session last night of the Utah State Prison Parole Board, seventy applications had been acted upon with eleven paroles granted and twenty-eight sentences terminated. Six cases were continued to the next meeting while twenty-five petitions were denied.

THE DAY'S NEWS SUMMED UP

KEY. Clear. Wind at 5 m.p.h.; temperature, 74 deg.; humidity, 60 per cent. For Los Angeles and vicinity: Fair. For other sections, see last page of this section.

"A Good Fit"

Hip-Flask Rum Held Legal by Illinois Judge

CHICAGO, Sept. 27.—Hip liquor, discovered on the person of a citizen of the State of Illinois, is not illegal, according to a decision by Superior Judge Joseph B. Davis.

Coolidges Go for Overnight Yacht Cruise

WASHINGTON, Sept. 27.—President and Mrs. Coolidge boarded the Mayflower today for an overnight cruise down the Potomac.

Seaplane PB-1 Forced Down on North Trip

LLWACO (Wash.) Sept. 27.—The United States Navy seaplane PB-1 was forced down here at 1:10 p.m. today, by trouble in the forward engine. The big plane, which failed to start on the Pacific Coast-Hawaii flight recently, was en route from San Francisco to Seattle. The plane landed in Baker's Bay, without accident.

PORTUGUESE MILITARY REVOLUTIONISTS FREED

LONDON, Sept. 27.—Messengers from Lisbon received here state that all the officers and soldiers implicated in the Portuguese military revolution last April were acquitted at 4 o'clock this morning by a court-martial. The verdict declared they had aided an uprising without treasonable intent.

LOCATION OF COURT CHANGED FOR TRIAL

TUCSON (Ariz.) Sept. 27.—To save excessive cost in transportation of witnesses, the trial of Jesus Rivera and Manuel Mendoza, charged with the murder of Julian Celaya at Ajo, will be held in Ajo, although with jurors called from the regular county panel. The change of court location is permitted under a special act of the Legislature.

REMEMBER THIS

Underhand method is a poor way to put things over.

GOV. SMITH'S PRESIDENCY DRIVE OPENS

Executive Outlines His Campaign Platform in Speech at Chicago

CHICAGO, Sept. 27.—Gov. Smith of New York opened his new campaign for the Democratic Presidential nomination in an address at Cook county's democracy's picnic at Palos Park today.

NAVAL MEN HOLD HOPE FOR RESCUE OF S-51 CREW

Efforts to Raise Wrecked Vessel Delayed Until Arrival of Larger Tug

NEW LONDON (Ct.) Sept. 27, (11:45 p.m.)—Suspense, hope and fear alternated at the submarine base here today and tonight, and a thousand officers and sailors waited anxiously for word of the rescue of their thirty-four comrades imprisoned in the submarine S-51, sunk Friday night and now lying 138 feet under water fourteen miles east of Block Island.

WAR CLOUDS OVER MOSUL DISPELLED

British Colonial Secretary Expects Hague Court to Settle Controversy

LONDON, Sept. 27.—On his return to London tonight from Geneva, L. S. Amery, British Colonial Secretary, dispelled the Anglo-Turkish war clouds, emphatically denying that the Turks and English will fight for possession of Mosul. Mr. Amery said he expected to get the Hague court's decision on Mosul in about three months.

Dr. Howard Set Free by Chinese Bandit Captors

LONDON, Sept. 27.—Dr. Harvey Howard of Rockefeller Institute at Peking, who was captured by bandits in Manchuria, July 19, when another American, Maj. Palmer, was killed, has been released as the result of military operations by the Chinese against his captors.

RUNAWAYS SCORED

Judge Warns Hasty Marriages Result in Separations

NEW YORK, Sept. 27.—Girls who race up to the marriage altar with young men who see potential wives in "ankle queens" have been warned to postpone matrimony by Justice Selah Strong of the Supreme Court in Brooklyn.

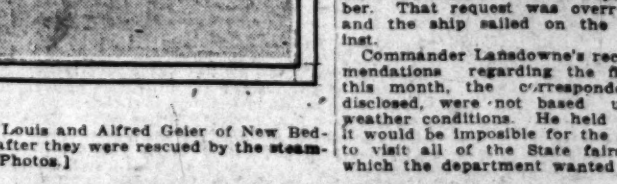

FOUR DIE, THIRTEEN INJURED IN WRECK

WAYCROSS (Ga.) Sept. 27.—Four persons were killed and thirteen injured when two Atlantic Coast Line passenger trains collided head-on near Newark, Ga., seven miles east of Thomasville, at 4:30 p.m. today. Three of the dead are negroes.

HORSES MAY BE EXPORTED

HAMILTON (Ont.) Sept. 27.—The Hamilton Spectator reports that the Canadian Department of Agriculture is going to ship four carloads of horses to Hamburg or Rotterdam next month as an experiment. The horses are to be of light draft, from 800 to 1200 pounds. There are many light horses in Western Canada, it is said, that are not easily marketable.

CRASH WIDOW MAY TESTIFY

Naval Inquiry Board in Shenandoah Disaster Invites Statement From Mrs. Lansdowne

LAKEHURST (N. J.) Sept. 27.—An invitation to Mrs. Zachary Lansdowne, widow of the commander of the wrecked airship Shenandoah, to appear and make a statement if she desires to do so will be today during the week-end recess of the court.

After the Shenandoah disaster Mrs. Lansdowne was quoted as having said that her husband did not want to make the voyage because of the danger from storms. The question of whether Commander Lansdowne did object to making the midcontinental flight at the time already has come before the court in both oral and documentary evidence.

Official communications passing between Commander Lansdowne and the Navy Department show that the original flight set for July was postponed on his recommendation, and that later he asked that the departure of the Shenandoah from Lakehurst be deferred until the second week in September. That request was overruled and the ship sailed on the 2nd inst.

Commander Lansdowne's recommendations regarding the flight this month, the correspondence disclosed, were not based upon weather conditions. He held that it would be impossible for the ship to visit all of the State fairs at which the department wanted her

Admiral Christy, directing operations from his flagship the Camden, warned against pessimism, directing attention to the survival of Capt. Rodgers and his crew on the seaplane PN-8 No. 1 when the entire world believed them lost.

Conservative naval opinion as to rescue perils that at least six men alive in the wreckage of the engine rooms of the submerged vessel. Those who were asleep forward are thought to have been drowned.

The submarine is 240 feet over all. When she is raised stern first her position will be perpendicular. With the Chittenden and the Monarch both applying their lifting power it is thought bringing the wreck to the surface will be a matter of but a few hours.

Although official statements discredited a mid-evening report that tapping had been heard from within the submarine by divers who had been signalling on the outer shell of the S-51 at intervals for forty-eight hours, some members of the rescue-salvage force insisted these tapings have been heard distinctly. Naval officials admitted they had not given up all hope of the rescue alive, at least a few of the men of the crew.

WAGES GAIN IN BUYING POWER

Real Values Greater Than in Boom Period

Cost of Living Nullified High Salaries

Rents Taking Downward Turn, Investigator Finds

NEW YORK, Sept. 27.—Although the high wages paid at the peak of boom time in 1920 are looked back upon regretfully by many workers, yet the buying power of their earnings during the last three years has been consistently greater than the buying power of those very high figures of 1920.

FRASER RIVER SALMON PACK SHOWS SLUMP

WOUNDED LAD WILL LIVE

SALT LAKE CITY, Sept. 27.—Richard Calvin, 13 years of age, son of Mr. and Mrs. H. H. Calvin, shot accidentally yesterday when a revolver in the hands of a playmate was discharged, is expected today to recover. The bullet passed through the lad's chest. The Calvin boy is a grandson of E. E. Calvin, vice-president of the Union Pacific of Omaha.

MYRIAD BUTTERFLIES PROVE REAL MENACE

TEXAS CROPS IN DANGER IF INSECTS CONTINUE TO INCREASE

SAN ANTONIO (Tex.) Sept. 27.—This district is being attacked by millions of red and yellow winged butterflies. These pests if permitted to increase will ruin crops.

ESKIMO DYING OUT

Doctor Says Simulation of White Man's Ways Fatal to Race

EDMONTON (Alta.) Sept. 27.—Dr. E. B. Scott, who recently returned here after one year at Akavik, in the delta of the Mackenzie River, predicted that not many years will elapse before the Eskimo will be exterminated by disease through adopting white men's ways of living.

ASKS MOSQUITO FUND

SALT LAKE CITY, Sept. 27.—The Salt Lake Mosquito Abatement commission has asked the legislature to fix its 1926 budget at \$20,000. This year the commission made some headway at abatement but \$18,000 was available. Because of an unusually wet season the mosquito nuisance this year was difficult to fight.

TWO BRITISH RACING PLANES ON WAY HERE

LONDON, Sept. 27.—Great Britain's two secret racing airplanes, one of which is said to be able to fly four miles a minute, left for America yesterday afternoon, accompanied by their pilots and mechanical staff, to compete in the Schneider Cup races at Baltimore next month. The British planes embody the very last word in aeronautical racing development and will be closely guarded night and day on the voyage and in America by a specially picked staff of men.

PANAMA REPORTING ALIEN COMMUNISTS

PANAMA, Sept. 27.—Panama took strong action against the Communists yesterday when, following a Presidential warning that alien agitators would be deported, Delacruce de Pedro was arrested and shipped to Spain. Rudolph Von Wenden was shipped to Germany, a Mexican Communist was followed tomorrow. Recently the foreign Communists urged the Panamanian workers to pay no rent, and made speeches attacking the United States. The workers held a large protest meeting last night, but the situation is quiet.

WILL DECORATE COUPLES

BERLIN, Sept. 27.—The prewar custom of decorating married couples who celebrate golden wedding anniversaries is to be revived by the Prussian government. A specially coined medal will be presented in each case.

REVOLUTION IN BUSINESS SEEN

National Advertising Brings Great Changes

Personal Factor in Trade Found Waning

Quick Turnover Releases Jobbers' Capital

(EXCLUSIVE DISPATCH) NEW YORK, Sept. 27.—Business in the United States, principally because of the phenomenal development of national advertising, and the increased facilities of communication and transportation, is in process of a transformation, which is so radically changing the trade structure as to be nothing short of a "commercial revolution," in the view of the National Industrial Conference Board.

The concomitant evolution of new business methods and tactics present problems to which public policy is slowly adapting itself, in the light of the conference board's comprehensive analysis of ten years' governmental regulation of competition, under the Clayton and Federal Trade Commission acts, in its study "Regulation of Competitive Practices," just completed.

Two factors stand out as significant in the changing picture of business evolution, according to the board's analysis: The waning importance of the personal factor in trade, and the shortening of the process of distribution. Where formerly goods were bought on inspection and by personal bargaining, nationwide advertising has made possible the more direct purchasing, by specification of standardized commodities at given prices without intermediaries. The manufacturer, brought nearer to his markets through nationwide advertising, depends less on salesmen or jobbers, or even the retailers, and prompt deliveries by

improved freight service and the auto truck make possible frequent ordering in smaller quantities, often referred to as "hand-to-mouth" buying.

The resulting quicker turnover on a larger scale has released much capital formerly tied up in jobbers' stores, the board's report indicates. But the new ways of doing business also have brought many new problems of readjustment and of regulation, toward the solution of which the Federal Trade Commission's activity is directed, thus relieving the already crowded courts.

Among the novel business tactics developed under the new trade conditions are many not easily classified as fair or unfair, and some not wrong in themselves, yet undesirable for economic reasons, according to the board's report. As advertising takes the place of personal contact between buyer and seller, the report points out, the producer is forced to adopt new devices to develop and retain good-will so as to assure himself of a steady volume of business. Branding of products, intensive advertising of trademarks and trade names and of retail prices, and attempts to enforce such advertised prices thus developed, according to the board, in the effort to capture and hold distant markets. In working out the problems of regulation arising from these newer methods of marketing, and in the sifting of the "unfair" and the fraudulent from the legitimate, much co-operation is being given the Federal Trade Commission by the trade associations and other voluntary business organizations, the board points out.

A most reassuring feature of the situation indeed, the board finds, is the voluntary action taken by trade bodies in ridding business of questionable or undesirable practices of competition.

OIL ROYALTIES RECEIVED

(EXCLUSIVE DISPATCH) AUSTIN (Tex.) Sept. 27.—An income of \$180,000 from all royalties on production in the Big Lake field for the month of August was received by the University of Texas. This sum was made up of payments by two companies—the Big Lake Oil Company and the Texas Oil Company. The total received by the university in the form of royalties from oil produced upon land it owns in the Big Lake field had mounted to \$1,487,000 on the 15th inst.

GERMANY TO TAKE PART IN CONFERENCE

Committee in Reichstag Approves Entrance Into Security Parley

(BY CABLE—EXCLUSIVE DISPATCH) BERLIN, Sept. 27.—The Foreign Relations Committee of the Reichstag this afternoon ratified the Luther cabinet's decision to participate in the security conference with the Allies on the basis of Germany's note to France on July 26, last. Thereby a lengthy and cumbersome process, which now attends any action of major importance undertaken by the German government, was closed. That the committee's approval was a foregone conclusion was demonstrated by the fact that the note of acceptance had been wired to the German embassies in Paris and London long before the deputies met. Quai d'Orsay an hour or so after their meeting.

Of the committee's deliberations held behind closed doors it was learned only that a final half-hearted attempt by the Nationalists to limit the power of the German plenipotentiaries to the conference was blocked by the united veto of the members. A resolution recommending that the Reich's rejection of war-guilt assigned her by Versailles Treaty be formally and publicly formulated forthwith, was voted down.

FEED RATES REDUCED

(EXCLUSIVE DISPATCH) CORPUS CHRISTI (Tex.) Sept. 27.—The Texas-Mexican Railway Company has agreed to participate in the reduced feed rates for the drought area, according to word received in Corpus Christi by S. M. Patterson, manager of the Corpus Christi Chamber of Commerce.

These rates are to be applied to all points on the Texas-Mexican line, and Jim Wells counties, with the exception of Corpus Christi.

PUBLIC HEALTH REPORTED GOOD

Surgeon-General Declares Death Rate Low

Communicable Diseases Less Destructive

No "Close Quarantine" Due to Yellow Fever

(EXCLUSIVE DISPATCH) WASHINGTON, Sept. 27.—"Health conditions in the United States have been generally good, so far this year," said Surgeon-General Cumming of the United States Public Health Service in an interview.

"Preliminary figures indicate that the death rate of the United States for the first seven months of 1923 will be lower than the average for the last seven years."

"Reports from State and city health officers indicate that most of the more common communicable diseases have been less destructive than usual during the summer."

For eight weeks following July 1, last, the States which report regularly to the United States Public Health Service have recorded approximately 6400 cases of diphtheria. Last year for the corresponding period, some States reported nearly 1100 cases, a decrease for the period of 80 per cent. During the same period of time last year, 1100 cases of scarlet fever were reported, a decrease from last year of 37 per cent while scarlet fever decreased 10 per cent.

During the spring and summer months, the prevalence of infantile paralysis usually increases. This year the increase in some parts of the country has been marked. Thirty-two States reported 1483 cases of infantile paralysis for eight weeks this summer and 435 cases last year for the same period. This increase is not uniformly distributed. With the coming of cooler fall weather the danger from this disease diminishes.

For many years the incidence of typhoid fever has been decreasing in the United States. The general death rate per 100,000 population in the registration area has dropped from 55.9 in 1900 to 6.8 in 1922. This year, however, there seems to have been a slight reaction. Since the first of July, thirty-three States have reported 7113 cases of this disease, an increase of 48 per cent. Some of this apparent increase, however, may be due to more nearly complete reporting of cases.

Because of the absence of yellow fever from Mexico, Central and South American ports and the very low incidence of this disease even in countries where it is present, there has been no "close quarantine" this year on account of yellow fever, which means, of course, that there has been no detention of passengers. The absence of yellow fever in Latin American countries is unquestionably due to the relentless campaigns which have been carried on against the yellow fever mosquito.

In concluding, the Surgeon-General expressed the hope that the authorities of those countries where yellow fever infection still remains at the present time will continue the work of extermination until quarantine measures will no longer have to consider measures against this disease.

JAPANESE TO DEVELOP OWN ISLAND

University Man Tells of \$750,000,000 Program of Orientals

(EXCLUSIVE DISPATCH) BERKELEY, Sept. 27.—Seeking the solution of its greatest diplomatic difficulty, that of restrictive immigration, the Japanese government is planning to spend \$750,000,000 in the next ten years in the development of land within the empire, according to Yoshi K. Kuno, assistant professor of Japanese in the University of California.

The Japanese government plans to develop the island of Yezo, of Hokkaido, the second largest island in the Japanese Archipelago, which now has a population of about sixty-two to the square mile, as compared to the average of 280 in the other islands.

Yezo, according to Prof. Kuno, can support comfortably a population of between 5,000,000 and 6,000,000 people. The climate is rather cold, and for that reason its settlement has been slow. With the development of projects planned, however, the imperial government hopes to make it attractive agriculturally and as a place in which to live.

NEW YORK FIREMEN HINDERED BY LATHER

(EXCLUSIVE DISPATCH) NEW YORK, Sept. 27.—Firemen called on four alarms to a spectacular Greenpoint blaze waded about in lather and soap bubbles up to their knees in places. The hundreds of spectators who pressed against the fire lines saw cascades of froth pour from windows and flow through the streets. The fire was in the factory of the Barnes Soap Works, which makes soap for the United States Navy.

There was nothing unusual about the blaze until the lines of hose began to pour tons of water into the building. When it got into the soap it converted the interior of the building into a seething mass of hot lather and bubbles, which soon forced their way out windows and doors.

RIVALS THE BEAUTY OF THE SCARLET TISSUE

Still has the original point and is giving good service

Written with a Parker Used 31 Years

—and used by hundreds of hands

CORN was selling in the neighborhood of fifty cents a bushel and Parker Duofold Pens had not yet been given to the world, when one July day in 1894, H. M. Crockett bought his Parker "Lucky Curve" Pen.

Yet that same Parker still writes his letters, and he says in writing to us recently, "still has its original point and is giving good service after 31 years' continuous use." We are frequently hearing of similar cases.

Now if Geo. S. Parker pens of the 80's and 90's are still on the job, isn't it safe to suppose that his super-pen, the Parker Duofold, will endure whoever buys it?

For Parker Duofold embodies still and improves on what we made Mr. Crockett's pen. The 25-year point—the "Lucky Curve"—the Over-the-ink-capacity—the Proven Duofold—the free-swinging Balance—and the black-tipped fountain barrel, so handsome to own and handy to hold.

Next time you are tempted to good store stop in and try the famous Parker.

BIG BEAR LAKE IN HIGH GEAR

Auburn Eight Sets New Record!

ON Saturday, September 10th, a standard model Auburn Straight 8 touring car, fully equipped and with nothing removed to lighten weight, achieved a feat which has been unsuccessfully attempted by numberless cars during the past ten years!

Driven by Fred Johnson and accompanied by Geo. F. Stephenson, technical representative A. A. A., who observed the run in an unofficial capacity, the powerful Auburn was started from the Chamber of Commerce Building, San Bernardino, by Mayor Grant Holcomb at 6 a. m.

Exactly one hour and 23 minutes later, it pulled up to the Motor Transit Depot at Big Bear Lake having accomplished the 40.6 miles over the hairpin turns and heart-breaking grades of City Creek Road without once shifting from high gear.

A wonderful tribute to the power and endurance of the motor as well as the unflinching speed, power and perfect lubrication of Richfield Gasoline and Richlube Motor Oil which were selected for this gruelling run after actual tests with other gasolines and oils.

Officials and Witnesses: Mayor Grant Holcomb, San Bernardino; Ben Holmes, President San Bernardino Chamber of Commerce; Los Angeles newspaper representative; Jay Boone, Chief of San Bernardino County Motor Patrol; and Motorcycle Officers R. L. Shaw and John Marks.

Only Man Ab Gain Against Clubmen

Test by Olympic Team Severe Setback

BY FRANKLIN B. MOH

SAN FRANCISCO, Sept. 27.—Stanford University has no need to close its doors for the 1923 academic year, so the students are not yet returned from summer vacation. Under the circumstances, it was impossible to meet the defeat of its football team on Saturday by a score of 14 to 0 at the hands of the Olympic team.

Certainly the scattered undergraduates were in no mood to celebrate when it became known that the Stanford team had lost. The papers of the day, however, reported the defeat of the team as a "beaten team" after a seven-minute play of the quarter.

TEAM OF VETERANS However, there are a number of Stanford players who are veterans of the first place, every man of whom knows the game thoroughly. The majority of the players were stars in their own right, and largely for this reason have been obtained by teams to play on their own. Secondly, the Olympians, at a full month of practice, which interval they have spent in three actual contests. Opposed to this, we have a team that has had only one practice and which has shared together before in action.

Stanford had no line in its lineup on Saturday to the end of the clubmen. The Stanford team snapped the link for a play there was a number of white players, including through the line north of Stanford's backfield. The reason was not established. The players' protection and nerve, however, was to get started.

Stanford was able to maintain constant gains, and because of his wonderful ability, his weight and power, he was a question that had a lot of sweat and blood in Nevada, Murphy, Hyatt, Dodge and others. But Stanford on Page 5, Column 1.

BADGRO IS TROJAN FIND

Work of End Stands Out in Saturday's Games; Jones Plays Golf While Charges Enjoy Rest

BY BRAVEN DIER

Howard Jones played golf yesterday while his U.S.C. grid athletes recuperated from their strenuous workout of Saturday when engaged in a touchdown orgy at the expense of Whittier and Caltech. Whether the new mentor's golf score was as impressive as that of his charges we don't know, but if his brilliance on the links approaches that of his grid attack there must be quite a few trophies decorating the mantle in the Jones domicile.

The Trojans, for the most part, were pretty well tucked out by their exertions. They had a perfect right to be for negotiations started at 1:30 and didn't cease until five minutes past six, which is considerable of a workout even for a bunch of grid enthusiasts. Bill Friend, Henry Le Febvre, Morris Badgro, Hobbs Adams, Gorrell, Taylor and Crayth were ready to call it quits when the game ended. Jones worked these boys especially hard and as he put it after the last contest: "Some of them looked like I'd done with 'em."

BADGRO FEATURES

The other U.S.C. ends are going to have a tough time keeping Red Badgro off the team. To our way of thinking his work was one of the outstanding features of the afternoon's program. Paired with Morton Kaefer in Jones's aerial attack he's going to be a

SMILING DAN II IS RACE WINNER

Baby Mine Stars Despite Bad Breaks in Heats

Quicksilver Features With Clever Victory

False Start in Second Heat Helps Lorena A

Smiling Dan II, Dick Loyne's classy hydroplane, added sixteen points to its lead in the dash for the championship, in the races held yesterday in the outer harbor by the California Yacht Club.

TWO FEATURES

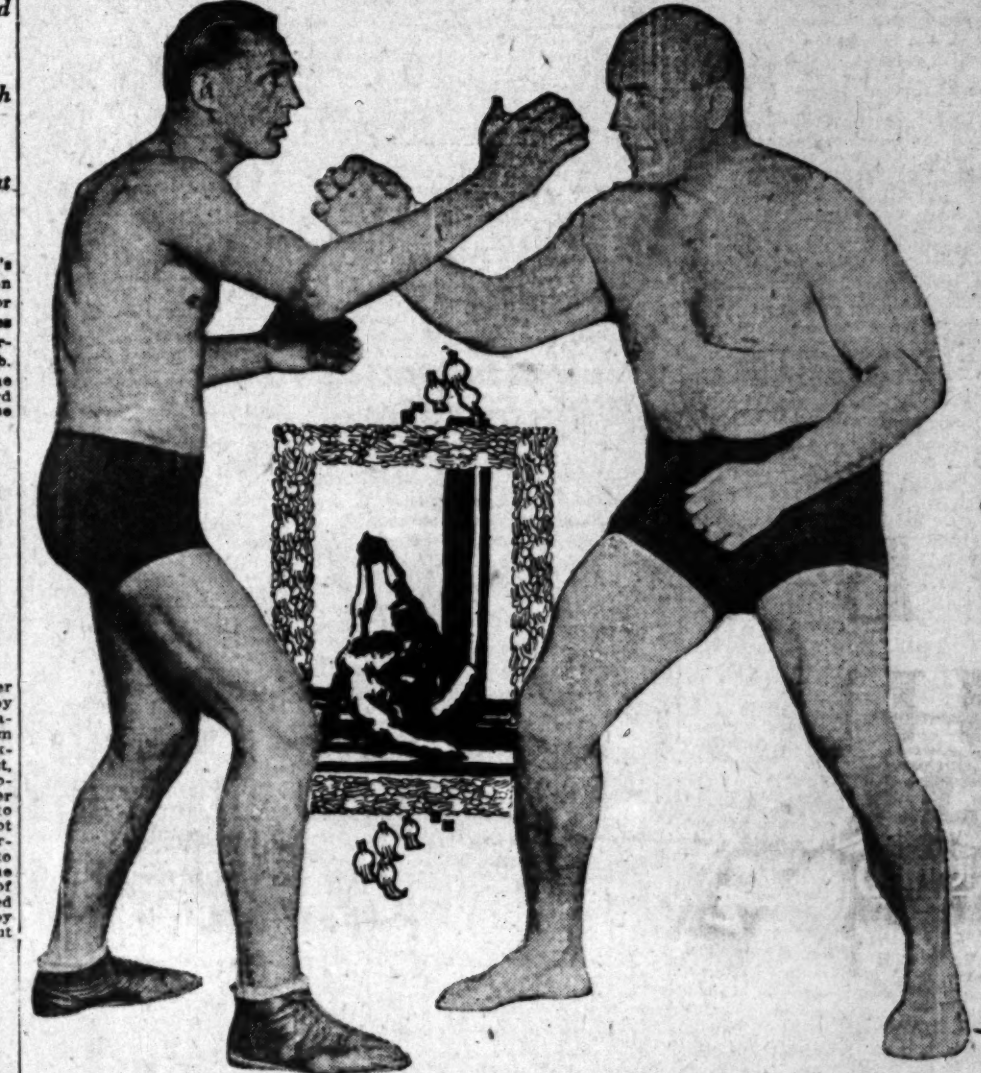

The victory of the Quicksilver and the ill fortune of the Baby Mine were two of the main features of the day's sport, aside from the races themselves. The Quicksilver, a new boat from the East, but with the old Quicksilver's motor installed, did not start in either the first or second heat, due to the fact that the engine could not be started to running satisfactorily. The mechanics managed to get the boat in order just in time to line up for the final heat of the day, and Quicksilver, coping in keen fashion, beating the Baby Mine, its nearest rival, by about an eighth of a mile.

CHICAGO TOWN AND TENNIS CLUB, CHICAGO, Sept. 27.—George M. Lott, Jr., and Lucian E. Williams, representing the Western Association, today won the sectional team tennis championship of the United States by defeating William T. Tilden, six times national champion, and Manuel Alonso, the Spanish star, playing for the Middle States, 2 matches to 1.

JOHNNY DOEG AND MRS. HENRY ANNEX TENNIS CHAMPIONSHIPS

Championship tennis play at Santa Monica yesterday, closed with a single upset in the final round. Allen and Ruscher, the Pasadena doubles squad, surprised a gallery of some 500 fans when they won from Ben Gorchakoff and Art Kuseman, 10-8, 6-4. In the final match for the men's double title, Gorchakoff and Kuffman have held the State Junior doubles title for three successive years.

THEY'LL BE TIED UP LIKE PRETZELS TONIGHT

Arkansas Grids Test Iowa Line Next Saturday

EXCLUSIVE DISPATCH

IOWA CITY (Iowa) Sept. 27.—A splendid test for the embryonic Iowa line is expected from Arkansas next Saturday. A heavy line has been predicted for the southerners since it has been known that most of the 100-pounders which comprised the forward wall last season would be back at Fayetteville this fall and information leaking in here this week-and indicates that Coach Smith and his assistant, Barnes of Chicago, have uncovered several beefy sophomores to add to the old guard.

TIGER TROUPE TAKES SERIES

Washington Park is Closed With Vernon Triumph

Pillette Bests Leverenz in Opener Hurling Duel

Bengals Bunch Hits to Nab Free-Hitting Nightcap

BY ROBERT RAY

Washington Park, after having given more than twenty years of service as a baseball battleground, took its place in history yesterday following Vernon's double victory over the Portland Beavers by scores of 4 to 3, and 6 to 4. The Tigers provided a fitting finish to the old park where, in past years they battled to three pennants under Bill Ewack, for the twin win also gave them the odd game of the series.

TITLE MAT GO TONIGHT

Joe Stecher Meets Stanislaus Zbyszko for Crown at Daro's Olympic Auditorium Show

The biggest wrestling match of the season comes off tonight at the Olympic Auditorium when Joe Stecher, holder of the world's championship, defending the crown against that marvelous Polish veteran Stanislaus Zbyszko. Lou Daro, the round grappling impresario, is staging the affair and in addition to the main event has three other bouts carded. The first brawl commences at 8:30 o'clock.

General Office—Establishment of Chas. Levy & Son

LEVY Custom Tailored CLOTHES

Cost Less Because They Serve Longer

PRICE, by itself means little. It must be considered in relation to desirability—utility—intrinsic worth. If a few dollars more for a suit of clothes doubles the length of service and improves your appearance—it is value far greater than the slightly greater price. Levy-tailored clothes for men are always better.

Orders Are Now Being Received for Formal Clothes for the Opera Season.

Personal Supervision Mr. Sam G. Levy

(BY A. P. NIGHT WIRE)

ST. LOUIS, Sept. 27.—Rogers Hornsby, home-run leader of the National League, bagged two more circuit clouts in today's double-header here between the Boston Braves and the Cardinals. His second of the afternoon came in the third inning of the second game off Benton, making the Cardinal chief's total thirty-nine for the season. The other was off Barnes in the opening contest. TIGER TROUPE TAKES SERIES

(Continued from First Page)

Pilette's sacrifice and Gillespie's infield hit, which Rionda felled, but threw low to first, gave the Tigers another marker in the seventh.

The Ducks did all of their scoring and evened the count in the eighth, which Leversen began by grounding out Laxey's singled and Hunnefeld fanned. High aloft singled and then Rohrer came through with his poke into the stands.

The Tigers picked up their winning run in the eighth. Hemingway again started the trouble by poking a double down the left field line. Griffin sacrificed Ed to third, while Thompson walked. Swanson hit to Rionda, but that worthy's throw to the plate was high, and Hemingway slid home safely.

The score remained knotted until the sixth, when the Tigers bumped Mr. Burns for four hits that showed in a couple of markers. Rionda was out for a starter, but Whitney singled. Bryan, who had a perfect day at bat with two singles and a double, then unhooked his double, putting Whitney on third. Gillespie walked and the loaded bases.

The Braves refused to be beat until the last out, scoring one run and filling the sacks with two out in the ninth, only to have Rionda play off a double play to Whitney to pull Bryan out of a troubling situation. Scores:

ALEX TOO GOOD

CHICAGO, Sept. 27.—Chicago punched hits off Mitchell today and defeated Philadelphia, 5 to 3, in the final game of the series here today. The season's series was won by Chicago, thirteen games to nine. Wright's home run in the first inning saved the visitors from a shut-out.

Alexander pitched in fine form, letting the visitors down with seven hits. Scores:

CAN'T BOTH PLAY

It's too bad Elliott and Kaer can't both play in the back-field at once. The former runs the team faster than Morton and also punces more directly. He is every bit as shifty in the open field, but, of course, lacks Kaer's wonderful speed. It may be that Homer Earle will give way to a faster man and in that case the back-field may be made up of Kaer, Elliott, Lee and Morley Drury. There's a world of speed

CASEYS, 5; PIGGLYS, 5

The Henry T. Gage Council of the Knights of Columbus nosed out the Piggy-Wiggly nine yesterday at Grifith Park in nine torrid innings of fun and frolic. Warden and Robak's fielding featured. The latter's home run in the ninth frame clinched the pastimeing.

The score:

PIGGY WIGGLY		K. OF C.	
AB	R	AB	R
Morton, 4	1	Tobak, 4	2

A CHUCKLE for EVERYBODY

LOCAL LAUGHS

Each week The Times produces a film entitled "Local Laughs," consisting of the fifteen best jokes submitted by local people. Weekly prizes are paid of \$5, \$2, and twelve of \$1 each. A list of theaters showing the film, together with prize money, is given daily in a coupon in The Times. Prize-winning jokes, and names and addresses of winners, appear only on the screen. Jokes receiving honorable mention will be given a place of honor on The Times comic page each week-day, and each of these contributors will receive a souvenir of acknowledgment.

"Yes, boss, that was a tame turkey I sold you."
"But I found it full of buckshot."
"Dem buckshot wasn't meant for dat turkey, dey was meant for me."
P. Mc Mahon, 801 North Olive street, Alhambra.

"I have lost three husbands. Shall I accept a fourth?"
"If you have lost three I should say you are much too careless to be trusted with a fourth."
Mr. H. R. Anderson, R. 1 Box 397, San Diego.

"Well, young man, so you want to marry my daughter. Can you support a family?"
"How many are there of you, sir?"
L. A. Garrison, Route A, Redlands, Cal.

"Mother, why do they put up the drawbridge when a ship is going out?"
"The water is not deep enough when it is down."
W. D. Coombs, 457 39th street, San Pedro.

Heavy LumberPhantom of Sea Dan
to Navigation

NEW YORK, Sept. 27. - The flying ghost ships are again making their early appearances in the waters of one of the most dreaded of modern sea monsters. This is the four-masted schooner Governor Parr of New York, which has achieved a record of having traveled thousands of miles in transit, shipping lanes for more than a year.

In these days of instant communication and of the world being so small, it is not surprising that the last October the Governor Parr's whereabouts were known in Washington. In October, the schooner was reported to have been sighted in the Chesapeake Bay. A dispatch from the United States Navy, dated in Washington, said that a schooner, probably the Governor Parr, was sighted 30 miles off the coast of Maryland.

LYING GHOST MENACES SHIPS

Has Drifted Many Thousand Miles

Schooner Loaded With Heavy Lumber

of Sea Dangerous to Navigation

NEW YORK, Sept. 27.—Men know ships are anticipating early appearance in West Indies waters of one of the most devils of modern times. The four-masted wooden schooner Parr of British registry, which has achieved the record of having drifted 10,000 miles in trans-Atlantic voyage, is expected to appear in the Caribbean Sea in a few days of instantaneous communication and constant contact with the Coast Guard. The last definite report of the schooner's whereabouts was received in October of last year, when it was sighted off the coast of Brazil, 10,000 miles from its home port.

For pencil luxury and economy—use

VENUS PENCIL

Finest pencil for every use—smooth, long-lasting lead—distinctive green watermark finish, solid gold stamping and specially selected eraser.

WILL SERVE JAIL TERM SUNDAYS

Farmer, Needed at Home on Week Days, Gets Novel Sentence

(SPECIAL DISPATCH) SALT LAKE CITY, Sept. 27.—Frank Wicker, a farmer of Bountiful, ten miles north of here, will spend the next five Sundays in jail. He was arrested and convicted of driving an automobile while intoxicated here and when the court rendered sentence the farmer protested that he was needed at home to support his family. The judge then fixed the sentence for Sundays only, and Wicker will report to the County Jail as ordered.

FORESTS TO BE USED UP IN 41 YEARS

Syracuse University in Plea for Conservation of Our Timber Supply

(SPECIAL DISPATCH) SYRACUSE (N. Y.), Sept. 27.—A competition of unusual interest is going on in the United States between constructive and destructive forces which might be called the race, between tree-life and tree-death. The New York State College of Forestry at Syracuse University sets forth in a recent bulletin.

One of the curious features of this race is that everybody is concerned importantly and for the most part everybody remains oblivious to what is happening. Another interesting feature is that there is not anything like an even chance of the race coming out in favor of those whose welfare is most involved.

The situation is readily understood by assuming that the remaining forests in this country equal the figure 186 and that our annual use represents the figure 4. Divide 186 by 4 and we have the number of years our forests would last provided no timber increase occurred through growth. In other words, if our forests were not increasing in volume by growth it is estimated that our present rate of consumption would exhaust all the merchantable timber now standing in about thirty-one years.

But growth in the forest annually is represented by the figure 1 1/2. This figure indicates, inasmuch as our consumption is represented by 4, that we are growing about one-fourth as fast as we are using timber and that our present merchantable supply will last that much longer, which means that it will actually meet our needs for about forty-one years. If in the meantime steps are not taken to offset the drain upon our forest resources, tree-death will have won a great victory. This catastrophe may be delayed and lessened to some extent depending upon how soon reconstruction on a large scale is started by waste prevention in the manufacture and use of wood products, forest management, and increased reforestation.

PROGRESS MADE IN FOREST WORK

Fire Losses of 1924 Fast Being Restored

Western States Aid Drive to Protect Woods

Helpful Legislation Passed in Present Year

(BY A. F. HUNT WISE) WASHINGTON, Sept. 27.—Striving to offset the record-breaking forest fire losses of 1924, the forces working to maintain a national forest policy are taking much satisfaction in the advances made during 1925.

In 1924 more than 28,000,000 acres were fire-swept and it is estimated that the nation suffered a loss of more than \$200,000,000 in its natural resources. As 1925 draws to a close, conservationists look to a record of progress toward the goal of restoring those and other losses and minimizing their recurrence.

OUTSTANDING EVENTS In the conservation movement are listed for September and October. The American Forest Week Committee meets here tomorrow at the United States Chamber of Commerce at the call of former Gov. Lowden of Illinois. On October 15 and 16, next, at Madison, Ind., a four-day conservation meeting will be held at the call of Gov. Jackson. At Seattle, on the University of Washington campus, the \$150,000 Agnes H. Henderson Forestry Building will be dedicated with appropriate ceremonies.

The first survey of recent forestry legislation in all the States now is being distributed by the American Tree Association. It shows that nineteen States already have State forests; thirty-three have forestry departments; sixteen maintain State nurseries and State forestry appropriations approximate \$5,500,000 a year.

NEW LAW HELPS "The year 1924 was marked by the passage of the McNary-Clarke law," said Charles Lathrop Peck, president of the association, "and the date will always be a big one in forestry history. Now the States must pass co-operation legislation in order to benefit by that law.

"The big point to remember is that the McNary-Clarke law is purely an authorization law, and it remains for each session of Congress to appropriate the money. However, it established a definite policy of Federal financial and advisory co-operation with all the forward-looking States, which is

PINCHING BRINGS ATTACK CHARGE

Celia Also Made Objection to Attempted Theft of Garment

(SPECIAL DISPATCH) ATTLEBORO (Mass.) Sept. 27.—When Celia Forrester of Londale, appeared as complainant against Fred Garripy of Adamsdale, she blushing admitted that the asserted attack consisted of pinching her and attempting to steal her garment. Celia's sister, Amelia, had a similar charge lodged against Joseph Mongan.

Judge Hagarty continued the case until he could determine, if possible, whether the asserted attack occurred in Massachusetts or across the State line in Rhode Island.

certain of increasing co-operation between Federal and State forest policy and administration. When the full limit of \$2,500,000 is reached by Congress it is hoped that State and private organizations will be spending \$7,500,000 for the protection of forests from fire, making an adequate total of \$10,000,000 a year for that purpose."

The association's legislative survey says: "In California the Legislature made several special fire-fighting appropriations amounting to about \$44,000. The fundamental taxation revision question will be voted on in 1926.

"Colorado strengthened its State Forest Service at the 1925 legislative session.

"Montana's Legislature has voted that all State lands chiefly valuable for forestry or for watershed protection shall be held as State forests. Seven State forests have been established.

"Oregon adopted an entirely new forestry code at the last Legislature. A tax commission of five was named.

"Idaho Legislature established a State forest policy, which is to be administered by a forestry board."

Human Emotions "Why do you weep over the sorrows of people in whom you have no interest when you go to the theater?" asked the man. "I don't know," replied the woman. "Why do you cheer wildly when a man with whom you are not acquainted slides into second base?" (Washington Star.

BOULDER DAM WILL ADD BILLIONS IN AGRICULTURAL WEALTH

Safety/Power/Water/ from Boulder Dam

EVERY year enough silt is carried down stream by the Colorado River to cover 90,000 acre-feet—enough to fill in the Panama Canal to its original state. To Los Angeles citizens this may be only a startling statement. To the agricultural districts stretching along the river banks, it is a problem of tremendous magnitude. Silt deposits daily increase the flood menace by raising the natural river bed. Boulder Canyon Dam will change this menace to a priceless opportunity for additional power and water, as well as safety.

Southern California is the richest fruit growing section in the world. Imperial Valley farmers see in Boulder Canyon Dam the solution of their problem. From the lake 80 miles long which this dam will create.... abundant water will enrich farm lands and add millions to crop wealth annually. It is estimated that a million and a quarter acres of desert land will become productive for farms and soldier's claims—as much land as is now under cultivation in all Southern California. This new property will be worth billions!

Los Angeles, with other communities, has an opportunity to share in these benefits. The Federal Government will advance the cost of the Dam, to be recovered by the sale of power rights, which in turn will permit Los Angeles to obtain a much-needed water and cheap hydro-electric power supply. This will furnish permanent these needed resources for generations to come and guarantee indefinitely to Los Angeles citizens and their industries the same low rates now in effect—or even lower.

Boulder Canyon Dam will not add one penny to City taxes. The Bureau of Power and Light will repay the Government from revenues for its share of Boulder Dam power. This will give this city the greatest public utility advantage of any city in the world, and create new economic wealth beyond computation. It is vital that the citizens of Los Angeles should secure such resources.

DEPARTMENT of WATER and POWER
CITY of LOS ANGELES

OWNED BY THE CITIZENS OF LOS ANGELES

Boulder Dam storage will furnish enough water to double the present irrigated area of the whole of Southern California—or... 1,250,000 more acres

Answers Every Question

DOES he want to know? Of course he does; and nothing will satisfy that endless curiosity about this strange and wonderful world but to tell him. Yes, but how? No half-hearted explanation will do. The answers to the daily stream of eager questions must be simple, interesting and above all, true.

Where do thoughts come from?
What are eyebrows for?
Why is the sea never still?
What makes the knots in wood?
Why are tears salt?

What is air made of?
Why are shadows so big?
Why do we dream?
What is smoke?
Where does the wind begin?

The Book of Knowledge

—the Children's Choice—Why?

THE SIMPLE STORY

The world of knowledge, past and present, has been selected and presented in just the right way to interest growing minds.—The plain and simple language and the easy conversational style, the brief articles, and striking pictures capture the attention and hold the interest for hours together. Try to take a volume away from any child or adult who is reading it!

THE NATURAL DEVELOPMENT

Each of the 16 great Departments of Knowledge has a development of its own, such as the subject demands—either from the simpler ideas to the more difficult, or as in the case of History, Art and Literature, from the earlier to the later periods of time. It keeps step with the expanding mind of the child or youth—so the gradual climb is made easy and delightful.

THE PSYCHOLOGICAL ARRANGEMENT

The arrangement of this original reference book for the young is not the mechanical A B C of adult works, but appeals to the psychology of youth. Each volume has a variety of fascinating reading and illustrations on different subjects which keeps the child reading, without the fatigue which too long attention to one subject produces in youthful minds. At the same time, each article is complete in itself, and a unit in the entire scheme of universal knowledge.

THE STRIKING PICTURES

The striking, often dramatic pictures, many in beautiful colors, tell a story or illustrate a fact in a way that will always be remembered. There are 10,000 pictures, 350 in colors. The Book of Knowledge is the pioneer in Visual Education.

WORTH ASKING ABOUT

What would The Book of Knowledge do for your boy or girl? Would you like to see for yourself? We will gladly mail to you free and without obligation a booklet of articles and pictures taken from The Book of Knowledge itself.

FREE

Intruder Who Threatened Woman on Former Visit Calls Again

Aroused from slumber by the sound of crashing glass, Mrs. L. W. Fellman of 1877 Oakdale street, Pasadena, collapsed last night when she found the same man trying to break into her home who a week ago had threatened her with death when she discovered him in the act of robbery.

Last Monday night Mrs. Fellman awoke to find a man in her room. He had already bundled up his things and other articles. He was holding a revolver against her side and said he would kill her if she called the police. He fled without making anything.

Last night, about 9:30 o'clock, Mrs. Fellman was awakened by the sound of breaking glass. She rushed downstairs, and saw the intruder trying to get in the front door. She tried to get in the front door, but the glass pane of which he had broken was in the way.

Mrs. Fellman recognized him as the man who had threatened her last Monday. She screamed and the intruder fled. Neighbors, aroused by her screams, summoned medical assistance.

Mrs. Fellman's son was sleeping in the house last night. Her husband was absent in the city on both occasions of the attempted robberies.

One Hundred Thousand in 1890
One Hundred Million Today!

Thirty-five years ago the CITIZENS BANK was founded with the modest capital of One Hundred Thousand Dollars.

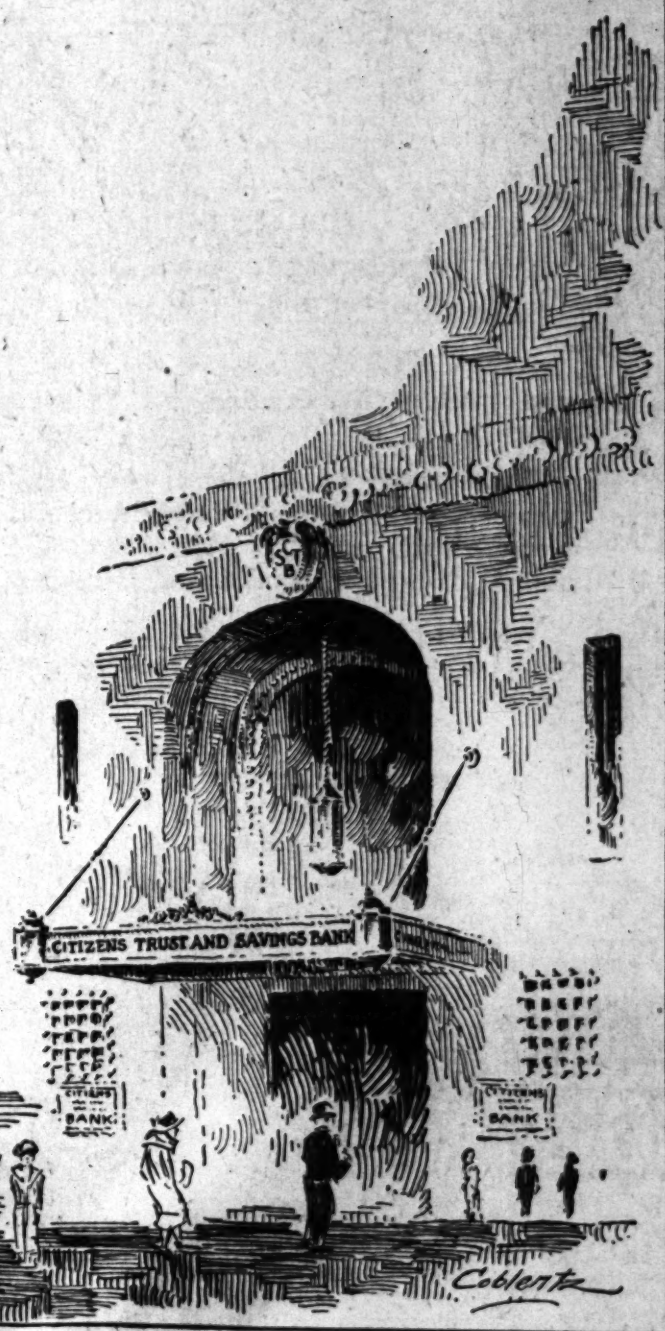

Throughout the years of development that have followed it has been our steadfast purpose to maintain the highest standards of banking.

Our every resource, every effort and every facility has been dedicated to the growth and upbuilding of the great Southwest through individual helpfulness to our depositors.

Today, with adequate provision for every banking need and with services world-wide in scope, the CITIZENS BANKS stand well over the mark of One Hundred Million Dollars.

Our one-hundredth consecutive dividend is now being paid to our stockholders . . . but more important, by far, than dividends to stockholders is that other vital dividend of constructive helpfulness to you.

Facts about the Upholstery in Studebaker ONE-PROFIT Cars

—that every Woman ought to know

Do You Know

- why the Pullman Company has used mohair upholstery for 40 years?
- why genuine mohair gives 2 to 3 times the wear of cotton fabrics?
- why 3000 automobile dealers estimate mohair adds from \$56 to \$95 to the value of Studebaker cars?
- why some seat cushions are comfortable and hold their shape for many years while others sag and become distorted within six months?
- the significance of exposed tacks in a closed car?

NINETY per cent of all automobile sales are influenced by women.

And upholstery is one of the first things women look at in a car. Women know fabrics. For they know that the quality of upholstery may rightly be considered an indication of the quality of materials and workmanship that lie hidden beneath.

So we frankly address this advertisement to you. For we want every woman to know the facts about the upholstery of Studebaker one-profit cars.

Three kinds of upholstery material

As you probably know, there are three kinds of materials generally used for car upholstery—mohair, wool and cotton. Mohair is by far the most desirable because of its long wearing quality and its beautiful texture. Genuine mohair fabrics are also extremely durable and entirely suitable for everyday use.

The upholstery in all Studebaker closed cars is genuine mohair or genuine wool. These animal fibres have advantages not available in any vegetable product such as cotton.

The advantages of mohair

There are many distinct advantages in the genuine mohair used by Studebaker. Mohair is made from the silky fleece of goats and government tests show that it wears two and one-half times the strength of cotton. It does not mat down. Its resilience gives both comfort and long wear. Studebaker mohair is color fast.

Mohair is a pile fabric and the nap or grain is woven to a base so that it stands upright. Wear thus occurs on the ends of millions of tiny hairs.

In mohair, the oil canal runs through the center, the surface being smooth and

fine high-grade mohair used in our Sedans in place of the cheaper cotton velour.

The average sales value which mohair adds to Studebaker Sedans was estimated by our dealers as follows: \$56.13 in the Standard Six, \$76.98 in the Special Six and \$95.24 in the Big Six.

These men know the value of mohair—they know how much it adds to the appearance and service of any car.

Hidden quality beneath upholstery

Throughout all hidden places in Studebaker cars you will find the same standards of workmanship and materials that you see out in the open.

The wool and mohair upholstery are indicative of the northern white ash and hard maple which you cannot see.

Concealment of all tacks by neat trim is typical of the attention to detail throughout the body and chassis.

The Studebaker cushions, for example, are made to conform to the high standard

Finer quality made possible by one-profit manufacture

This substantial quality is made possible because Studebaker cars are manufactured on the one-profit basis. By a "one-profit" car we mean a motor car that has all of its vital parts designed, engineered and manufactured by one organization.

The Ford is a one-profit car and reigns supreme in its field.

In the fine car field, Studebaker—and Studebaker alone—now offers you one-profit values.

Studebaker is the only fine-car manufacturer today making all of its own bodies, engines, clutches, gear sets, springs, differentials, steering gears, axles, gray iron castings and drop forgings.

Thus Studebaker, by eliminating the extra profits and overhead of outside parts and body makers, is able to offer you a much better car for the money.

The Studebaker policy of "no yearly models" protects you from unnecessary depreciation—and the recent price reduction without any change in quality, makes Studebaker value greater than ever before.

The Standard Six Sedan has always been a wonderful value—a leader of the Studebaker line—yet its previous low price has been cut one hundred dollars.

A one-profit value the Big Six 5-passenger Sedan

According to the rating of the National Automobile Chamber of Commerce only seven other American cars equal this Big Six in power. But they sell for two to four times its price.

Because one-profit manufacture has made the Big Six such a bargain in quality—it has become the fastest selling high-powered car in the world. The Big Six outsells every other car of equal or greater rated horsepower—not only in the United States but also abroad.

The 5-passenger Sedan is a car of marvelous performance. It has a wealth of power. Swift pickup. There is a thrill in its eager response to the throttle which cars at double the price can not equal.

Any of the dealers listed below will gladly show you this sturdy, dependable one-profit car.

Covarrubias Lampoons Mexican Dignitaries With Facile Pen

ANOTHER series of caricatures from the humorous pencil of Miguel Covarrubias, the Mexican boy artist whose work appears regularly in *Vanity Fair* and other eastern publications, is presented herewith.

This time Covarrubias, who is only 20 years of age, but is already known as the foremost artist in his line of work today, presents a group of Mexican dignitaries as his humorous fancy pictures them. They include President Calles, Aaron Saenz, Secretary of Foreign Affairs; Alberto Pani, Secretary of Finance; Dr. Puig Casauranc, Secretary of Education; Roberto V. Pesqueira, attorney for the National Railroads of Mexico; Ramon Novarro, motion-picture actor; Diego Rivera, famous Mexican artist; "Tata Nacho," noted composer; Adolfo Best Maugard, artist and educator; Dolores del Rio, motion-picture actress; Manuel Reachi, attache of the Mexican Consulate in Los Angeles, and last, but not least, a picture showing the artist's idea of what he looks like himself.

This is the second group of caricatures drawn by Covarrubias to appear in *The Times*. The first was published a few days ago, and showed caricatures of the principal figures who attended the luncheon given by the Chamber of Commerce at the Biltmore last Wednesday in honor of the visiting Mexican orators and their party.

LOSSES FEARED
IN RECLAMATION

Work Outlines Status of
Farm Projects

Scheme May Cost Nation
\$27,000,000

Deplores Debt Repudiation
by Settlers

(BY CHARLES McLENNAN)
NEW YORK, Sept. 27.—Dr. Hubert Work, Secretary of the Interior, charges that the Reclamation Department has made investments in projects in the West which will probably result in losses of \$27,000,000 to the government. Dr. Work's statement was made in an interview to be published in the forthcoming issue of The Outlook. He also asserts there is a disposition on the part of delinquent settlers to repudiate their debts to the government for irrigation services and reclamation work. "If the Reclamation Department had taken time to test a single experiment to its conclusion," said the Secretary, "before starting on the big program, many millions might have been saved but our enterprising westerners would not have been satisfied. "Today we have more than \$2000 farms with no farmers on them.

The government has invested about \$300,000,000 in reclamation projects of which \$27,000,000 will probably never be collected. We have, worst of all, a disposition on the part of some delinquent settlers to repudiate their debts regardless of their ability to pay." Dr. Work says that this year his department has adopted a policy in the collection of taxes hitherto not tried—that of requiring every person seeking to postpone payment to give the reason for his request. The result has been a renewal of collections where heretofore no payments had been forthcoming. He continued: "Of course, many private debts are pressing and the price of farm produce has for several years failed to give the settlers the desired amount of working capital. I have felt sympathetic with all such conditions and have recommended helpful legislation and we have practiced helpful administration. I have advised reductions in the interest rates which Congress enacted and the deferring of payments by worthy, but temporarily insolvent, settlers. We might even try to plan payments so that local creditors can be assisted. "I believe, because of the sympathetic co-operation of Congress, together with the teachings of experience, that we are entering on a period in the history of Federal reclamation that will see it established on a permanent foundation."

Obvious
"Good morning, Mrs. O'Connor, and is Pat at home?" "Sure, and where are your eyes, Diddy Murphy? Isn't that his shirt hangin' in front of ye on the line?"—(Yale Record).

YELLOW RIVER
IN NEW BREAK

Shantung Dike Gives Way;
Flood Increases

Area Larger Than Delaware
Now Inundated

Famine Commission Rushes
Aid to Sufferers

(BY CHARLES McLENNAN)
PEKING, Sept. 27.—A second break in the Yellow River dike in Shantung Province has resulted in the worst flood since 1887, according to Walter Mallory, executive director of the China International Famine Relief Commission, who returned today from an inspection trip. He reports that the flooded area is now equal in size to Delaware and is being enlarged hourly by the vast volume of water rushing southward. A part will be absorbed by the Grand Canal, but the main stream is spreading over the countryside like a sheet. Mr. Mallory says that probably 2,000,000 people and 200 towns and villages are affected. Many hundreds already have been drowned and all the crops are ruined. The Governor of Shantung has gone to the scene of the disaster, while the famine commission is rushing relief to the stranded people. The first break, caused by the swollen waters of the Yellow River, submerged 400 square miles, sweeping away everything in its path and filling the region to a depth of fifteen feet. Catholic missionaries told the famine commission officials the tremendous pressure against the dike made a second break, which it is now impossible to repair until the river falls. O. J. Todd, the commission's chief engineer, says the river may then be found to have entirely changed its course back to the old channel. The two breaches in the river lie between the Chihli border and the Grand Canal, the area extending to Taining and across both sides of the Grand Canal.

MANY HIDDEN FOES
LURK IN CITY AIR

A MILLION BITS OF POISON-
LADEN DUST INVADE OUR
LUNGS

There are many queer things in the air we breathe; most of them dangerous, many of them a real menace to life and health. Especially in this time of cities, where factories, hurrying crowds, and rushing vehicles all contribute to the invisible enemies that attack us as we drink in the oxygen essential to life. These unseen foes, says Popular Science Monthly for October, ride on dust particles stirred up by the feet of pedestrians and the wheels of traffic. The average person inhales about thirty cubic inches of air each time he breathes, in which there are likely to be between 500,000 and 1,000,000 particles of dust carrying such dangerous components as— Germs of many diseases, including tuberculosis. Garbage, pollen, leaf dust and other vegetable matter. Steel and other metal particles from factories, car tracks and the moving parts of motor vehicles. Soot and dust from factory smokestacks. Insect eggs and fragments of insect bodies. Poison gases from industrial furnaces, and, probably the most deadly menace of all, carbon monoxide from the exhaust pipes of motor vehicles. The only reason we can withstand the ravages of our unseen enemies of the air is that we have been provided with a marvelous mechanism for repelling their attacks. Most of the germs in the air do us no harm because they are dried out. Moreover, no germ, even if harmful, can injure us until it gets into blood, and formidable barriers, such as the mucous membrane in the nose and throat and the delicate hairs in the lining of the windpipe and bronchial tubes prevent them. Particles and germs getting beyond this first line find waiting a powerful army of red corpuscles and cells to resist them. In gases, however, lies great danger. The carbon monoxide poison from automobile exhausts, for example, is admitted into the blood as readily as oxygen. Slightly more than a quart of carbon monoxide is enough to kill a person, and the average automobile, according to tests made recently by the United States Bureau of Mines, produces as much as two cubic feet of it a minute. A man just can tolerate four parts of carbon monoxide in 10,000 parts of air. Six parts produce headache, and 1 per cent might cause death if the exposure were prolonged. Vapors from an automobile exhaust sometimes contain as much as 10 per cent carbon monoxide. An investigation to determine just how dangerous carbon monoxide on city streets is to public health now is being made by the health department of New York City.

Catholic missionaries told the famine commission officials the tremendous pressure against the dike made a second break, which it is now impossible to repair until the river falls. O. J. Todd, the commission's chief engineer, says the river may then be found to have entirely changed its course back to the old channel. The two breaches in the river lie between the Chihli border and the Grand Canal, the area extending to Taining and across both sides of the Grand Canal.

YELLOW RIVER
IN NEW BREAK

Shantung Dike Gives Way;
Flood Increases

Area Larger Than Delaware
Now Inundated

Famine Commission Rushes
Aid to Sufferers

(BY CHARLES McLENNAN)
PEKING, Sept. 27.—A second break in the Yellow River dike in Shantung Province has resulted in the worst flood since 1887, according to Walter Mallory, executive director of the China International Famine Relief Commission, who returned today from an inspection trip. He reports that the flooded area is now equal in size to Delaware and is being enlarged hourly by the vast volume of water rushing southward. A part will be absorbed by the Grand Canal, but the main stream is spreading over the countryside like a sheet. Mr. Mallory says that probably 2,000,000 people and 200 towns and villages are affected. Many hundreds already have been drowned and all the crops are ruined. The Governor of Shantung has gone to the scene of the disaster, while the famine commission is rushing relief to the stranded people. The first break, caused by the swollen waters of the Yellow River, submerged 400 square miles, sweeping away everything in its path and filling the region to a depth of fifteen feet. Catholic missionaries told the famine commission officials the tremendous pressure against the dike made a second break, which it is now impossible to repair until the river falls. O. J. Todd, the commission's chief engineer, says the river may then be found to have entirely changed its course back to the old channel. The two breaches in the river lie between the Chihli border and the Grand Canal, the area extending to Taining and across both sides of the Grand Canal.

in Scott Bros'. Great Change of Policy

Sale of New Fall
Suits and Overcoats

A Boon to You—A Loss to Us!

The
Reason Why!

OUR unexpected decision to feature, hereafter, two trousers suits of the quality kind, forces us to dispose of all our handsome single trousers suits, ordered for the Fall selling. These orders we were unable to countermand. Hundreds and hundreds of the newest business suits, sports suits and overcoats must be sold at big reductions. This is the only way out of our predicament. Here is the way for you to keep down the cost of being well dressed.

You Have Benefits
to Gain, But No
Time to Lose!

See
Our Windows!

SPEND a moment or two investigating a proposition that means valid savings of many dollars on any suit or overcoat you may buy. Remember this—every garment is superbly fashioned of superior wools, and has met our exacting specifications. Every garment is a smart, clean-cut Fall style, and is from our regular stock exclusively (not bought for sale purposes.) Large shipments of two trousers suits are en route. We must make room for them. Take this tip! See our windows and note the genuineness of our price reductions.

KING'S MYTHICAL SWORD

Excalibur is the name given the famous mythical sword of King Arthur, which he found inserted in a sheath of stone and pulled out, although 201 of his bravest knights had singly been unable to withdraw it. An inscription on the stone declared that whoever should succeed in unsheathing the sword would prove to be the rightful heir to the throne; and Arthur was King by general acclamation. The sword was said to be so bright that "it gave light like thirty torches." Arthur, at the approach of death, commanded an attendant to cast the sword into a lake near-by but the order had to be given three times before it was obeyed. As soon as the sword touched the water, a hand "clothed in white samite" appeared, caught it by the hilt, flourished it three times, and then sank beneath the waters of the lake. Tennyson has related this incident in "Morte d'Arthur."

NEW PRODUCERS IN EDDY COUNTY

District Now Credited With
Seventy-five

Maljamar Company Lease is
Named Leader

Output to Date Placed at
125,000 Barrels

(EXCLUSIVE DISPATCH)
ARTESIA (N. M.) Sept. 27.—
The Eddy county field has experi-
enced considerable development
work during the last ten days, and
has added three or four producers
to its production list. There are
now seventy-five active wells in
the field. It is reported that the
quarter-section operated by the
Maljamar Oil and Gas Company
has produced the most oil of any
lease in the field, it being credited
with a total of 125,000 barrels to
date.

The Ohio Oil Company has just
completed its No. 1 well on the
Toomey-Alan lease, Section 24,
18-28. It was given a shot of
glycerin at 2102 feet and is now
flowing by heads at the rate of
about 150 barrels per day, accord-
ing to field reports.

In the south end of the field the
Fletcher Oil Company has shot its
No. 1 well on Section 5, 18-28,
and expects to make a producer of
it. Flynn, Welch and Yates
have completed their No. 25 on
the south side of the field and
are shooting it at 2000 feet.

In the north end of the field
the Pueblo Oil Company has
brought in a nice producer in its
No. 1, located on the southeast
quarter of Section 4, 18-28. Work-
man & Thompson in the north ex-
tension have given their No. 1
producer another shot in twenty
feet of sand.

After considerable difficulty the
Snowdon-McSweeney-McNutt No. 8
producer was shot in the first
sand from 1885 to 1895 feet. At-
tempts to anchor a bridge proved
unsuccessful for several days due
to the amount of fluid being made.
According to a gauge the well since
the second shot made 300 bar-
rels in eight hours, this coming
from an eight-inch hole. The well
is flowing every twenty minutes
and when cleaned out is expected
to rival the big producer of the
Dome Oil Company, which it off-
sets to the west.

Operators continue to closely
watch the A. H. Range No. 1
on Section 31, 17-29. It contin-
ues to pick up sands and lime
streaks. All the sands carry some
oil.

A power pump has been ordered
to the Bally & Cragin No. 1 on
the Randolph permit. This six-
mile east of the producing area.

OUTPUT OF GOLD MILL INCREASES

Production of Tom Reed
at Oatman Expected to
Reach \$60,000 in Month

(EXCLUSIVE DISPATCH)
OATMAN (Ariz.) Sept. 27.—
September gold production from
the Tom Reed mill is expected to
be about \$60,000. The mill has
months' record of about \$50,000.
Ore receipts are being speeded up
from the Aztec lease, which has
made electric connection with the
Desert Power Company of King-
man.

Much lower production costs are
expected, by comparison with gas-
oline power heretofore used. An
electric hoist has been placed on
the mine on the 550-foot level of
the United American, from which
is to be driven under the Aztec
development.

North Star has started ship-
ment of \$30 ore to the mill, taken
from the No. 1 tunnel and the
apex of the company's vein. This
company also is operating the Ida-
ho mine, a silver-lead property in
Oro Blanco district, below Tucson.
The Gold Dust property here al-
so is preparing to ship to the Tom
Reed mill. The Gold Dust work-
ings are being resampled through-
out and Manager A. G. Keating
proposes to know just what he has
when the mine has its own reduc-
tion plant.

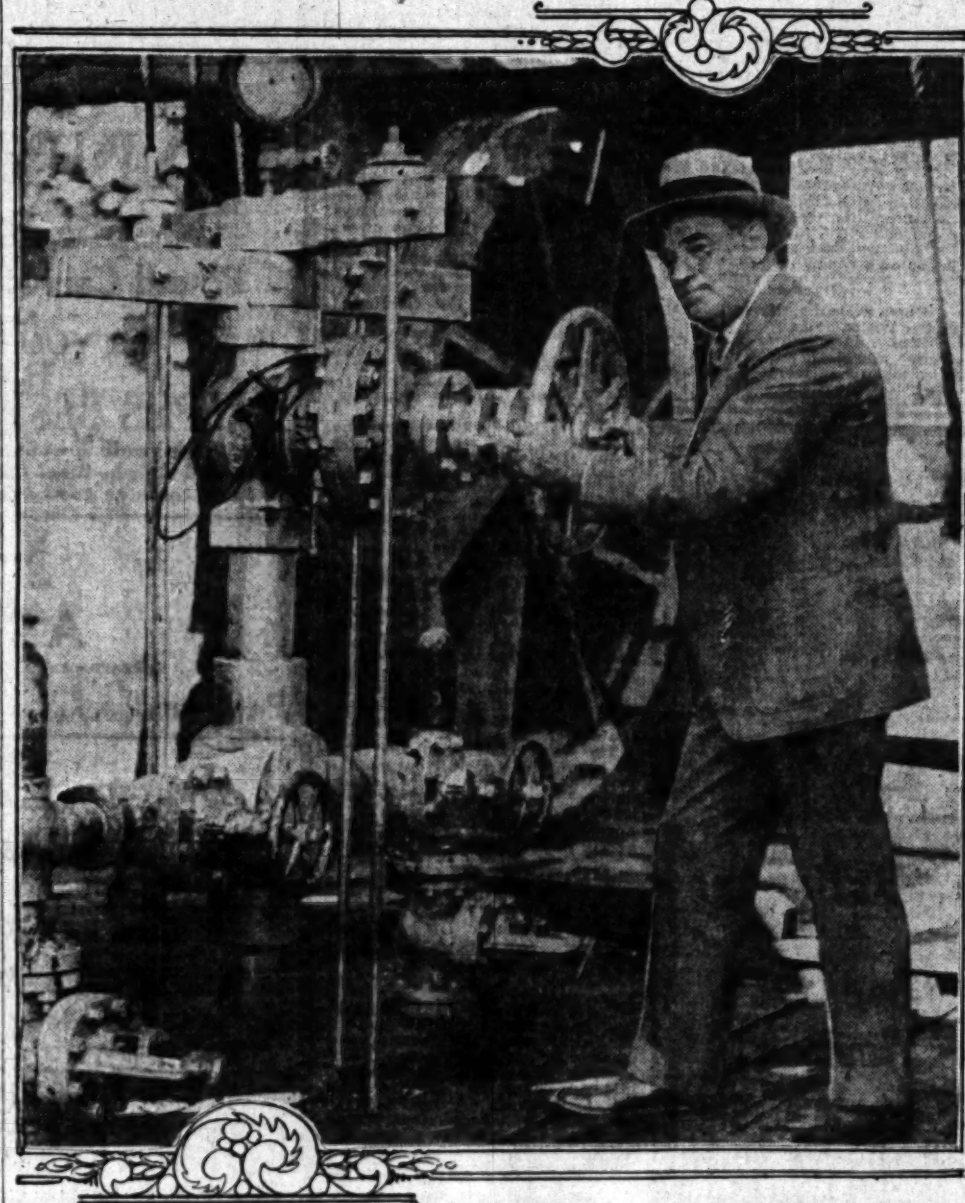

COLONIZING PROJECT BEGIN BY E. R. POST

(EXCLUSIVE DISPATCH)
TUCSON (Ariz.) Sept. 27.—A
large colonization project has been
started on the lands of the Pima
Farms Company by Edwin R. Post,
who, a number of years ago, or-
ganized the same district and
who sold about \$1,000,000 worth of
land to farmers, largely from Cal-
ifornia. Assisted by A. J. Emery,
who for seven years was State
dairy commissioner in Oklahoma
and who is a noted poultry show
judge, Mr. Post now proposes to es-
tablish on the project a second
Petroleum, the settlers to have the
benefit of expert advice centering
in a poultry experimental farm. It
is pointed out that at no time has
Arizona supplied her State mar-
ket with chickens and eggs and
that the mining camps bring Kan-
sas eggs in by the carload.

ARIZONA TUNGSTEN MINES SOLD IN EAST

(EXCLUSIVE DISPATCH)
TUCSON (Ariz.) Sept. 27.—
Tungsten again is to be a local
product. Miners in the Guila-
guilt Mountains in Arivaca district have
been purchased from the Emory
estate by eastern and local inter-
ests represented by B. S. Wilson.
The first unit of a concentrating
mill has been ordered. The mines
were worked ten years ago by the
National Tungsten Company.

WORLD'S DEEPEST WELL PRODUCING Los Angeles Operator Breaks Many Drilling Records

E. J. Miley Turning His Athens No. 5 Into the Tank

E. J. Miley's famous Athens No. 5 well, at Rosecrans, which prob-
ably holds the world's record for
world records, is the product of
twenty-five years of drilling ex-
perience. Mr. Miley, who may lay
claim with little dispute to the
title of champion well driller, be-
gan his career in 1900 as a roust-
about in the Kern county oil
fields. It is this background of
practical experience, plus the abil-
ity to keep up with modern me-
chanical and scientific methods,
which with the added ingredient
of luck, enabled him to put down
again to 8 per cent. Drilling 38.4
deg. gravity. When the well first
began its steady flow about
2:30 p. m., Saturday, it is said
to have flowed at the rate of 1500
barrels per day, this production
being induced by a gas pressure of
about 1500 pounds which had
built up behind the casing.
As the fluid continued to flow,
the pressure went down, with a
consequent decrease of production.
Some fears were felt yesterday
morning that the well might be
dropping off altogether when the
cut rose as high as 16 per cent
water, but this dropped down
again to 8 per cent. Drilling 38.4
deg. gravity. When the well first
began its steady flow about
2:30 p. m., Saturday, it is said
to have flowed at the rate of 1500
barrels per day, this production
being induced by a gas pressure of
about 1500 pounds which had
built up behind the casing.
As the fluid continued to flow,
the pressure went down, with a
consequent decrease of production.
Some fears were felt yesterday
morning that the well might be

to have flowed at the rate of 1500
barrels per day, this production
being induced by a gas pressure of
about 1500 pounds which had
built up behind the casing.

Work is progressing in a most
satisfactory manner in the devel-
opment of the King Solomon mine
of the San Francisco Gold Mines
Company of Randsburg district,
according to George R. Colton of
Los Angeles, president of the
company.
At the bottom of the mine, or
inside shaft, Mr. Colton states,
which has reached a depth from
the surface of over 485 feet, there
is a showing of three, and a half
feet of ore, one-half of which
is free-milling gold, the balance
being a sulphide product from
which assays have been obtained
of \$70 and \$100 in gold to the
ton, the entire shot being of
profitable grade.

Mr. Colton has met with gratify-
ing success in the operation of
the Duplex mine at Searchlight,
Nev., and has much confidence
in the ultimate outcome of the
King Solomon.

Stockmen Tell of Damage Done by Wild Horses

(EXCLUSIVE DISPATCH)
RENO (Nev.) Sept. 27.—Wild
horses have become a plague in
many Nevada cattle districts. At
the hearing held in Reno before
the subcommittee of the United
States Senate on grazing problems,
several stockmen stated bands of
mustangs were destroying pasture,
damaging water holes and stamp-
eding cattle on many ranges.
George W. Dieringer, large
Toiyabe mountain region stock-
man, said from 1900 to 1906 wild
horses were ranging in his lo-
cality and making life miserable
for the cattle owners. In several
districts hunters are killing or
crapping the mustangs for ship-
ment to California poultrymen, but
the horses are increasing so rap-
idly they have defeated all efforts
at extermination.

Comparison of California's Daily Oil Production Average for Week

District—	Week ending Sept. 19, 1925	No. of Wells	Week ending Sept. 26, 1925	No. of Wells	Week ending Sept. 27, 1925	No. of Wells

Plan Gasoline Extraction in Wet Gas Field

(EXCLUSIVE DISPATCH)
AMARILLO (Tex.) Sept. 27.—
Construction of three casinghead
gasoline plants in the Carson-
Hutchinson natural-gas field of the
Panhandle by the American Gas-
oline Company is now under way.
Each plant will have a daily ca-
pacity of 25,000 gallons of gasoline
and they are built in units so that
they may be enlarged if desired.
The project also involves the lay-
ing of a seventeen-mile pipe line
from the plants to the loading
racks at Panhandle.
This is the first attempt to utilize
the natural gas of this region for
its gasoline content. The available
supply of wet gas is enormous.
Only a small part of it is now used
for commercial purposes. As a re-
sult of recent investigations and
experiments, the American Gas-
oline Company proved to its satisfac-
tion that the gasoline content of
the gas can be extracted at a profit
for commercial purposes.
The American Gasoline Company
is also constructing a casinghead
gasoline plant of 25,000 gallons
daily capacity in the Washcom field,
near the Texas-Louisiana line, and
another of the same capacity at
Necessity, Tex.

Two New Wells Are Spudded in at Huntington

(EXCLUSIVE DISPATCH)
HUNTINGTON BEACH, Sept. 27.—
Two new drilling projects have
just been spudded in here. The
Richland Oil Company has spudded
in its No. 1 well in the Villa ad-
dition, on the east side of the field,
in search of shallow production.
The Central Oil Company has spud-
ded in its Hess No. 1 alongside the
boulevard and near Delaware ave-
nue.
California Petroleum Corporation
is on the verge of completing its
Brown No. 6. The well has been
showing symptoms of gas trou-
bles. It has been blown drilling mud
and oil clear over the crown block
several times. The pressure is re-
ported to be 800 pounds.

California Petroleum Corporation
is on the verge of completing its
Brown No. 6. The well has been
showing symptoms of gas trou-
bles. It has been blown drilling mud
and oil clear over the crown block
several times. The pressure is re-
ported to be 800 pounds.

LULING OIL PLANTS TO USE ELECTRICITY

(EXCLUSIVE DISPATCH)
LULING (Tex.) Sept. 27.—Elec-
trification of all the drilling and
pumping outfits in the Luling oil
field has been decided upon by the
United North and South Oil Com-
pany. It is stated that power prob-
ably will be furnished by the Texas
Power and Light Company of
Dallas, which is extending its
power transmission system through
that section.

VENTURA FIELD INCREASES FLOW

New Production Adds 3400
Barrels Daily

Report Additional Output of
Natural Gas

Midway Prepares for Record
Job Laying Pipe

Thirty-four hundred barrels of
new production per day were ad-
ded to the output of the Ventura
avenue field at Ventura last week
by the completion of two Gen-
eral Petroleum Corporation wells.
Yesterday it was reported that the
Notten No. 9 had settled down to
2400 barrels a day and that the
Barnard No. 4-A was doing 1100
barrels per day. These producers
increased the field's output of
natural gas by upward of 3,000,000
cubic feet a day.

Reports from the field are to the
effect that the Midway Gas Com-
pany is making preparations to do
a record-breaking job in the con-
struction of its pipe line from
Ventura to Glendale. It is said
to be planning to start crews of
men at four different points along
the route and crowd the work for-
ward in the expectation of complet-
ing it in from sixty to ninety
days. This would make the gas
supply available for Los Angeles
and the surrounding territory dur-
ing the early winter when the
consumption is climbing toward
its peak for the year.

The Midway is now hauling
and scattering all along the route
its pipe for the new line. It is
also making preparations to build
the big compressor plant which
will push the gas supply through
the line to Glendale. This plant
will be erected on the General
Petroleum Corporation's Barnard
lease. The G. P. owns this land
in fee but pays to the former
owner a royalty on all oil and gas
produced, it is asserted.

MASCOTTE MINE LETS CONTRACTS

Los Angeles Owners to
Sink Shafts on Claims at
Gilbert, Nev.

(EXCLUSIVE DISPATCH)
TONTOP (Nev.) Sept. 27.—
The Mascotte Mining Corporation,
controlled by C. B. Loop, R. P.
Davidson, C. Edward Courson and
other Culver City capitalists, has
awarded contracts for shaft-sinking
on its lease on the November
Morm claim at Gilbert, Maj. H. M.
Russell of Los Angeles, former op-
erator of Mexican mines, has been
placed in charge of activities. The
property lies near the Homestead,
Black Mammoth, Last Hope and
other attractive groups.
Preliminary to more comprehen-
sive operations the Gilbert Home-
stead Company has slightly
changed its directorate and ar-
ranged for financing deep work.
Capt. John A. Hassell and F. B.
Mathews of Los Angeles have re-
tired, and Roy Carruthers of De-
troit has succeeded Mr. Hassell as
president. Mr. J. Monnette, Lyn-
ford E. Maxwell, M. A. Bryant and
A. C. Jamison, all of Los Angeles,
are directors. It is understood
that a deep central shaft is pro-
jected as soon as heavy equipment
can be installed.
The shaft is scheduled to
start within ten days at the
Comet and Meteor mine in the
Seven Frouds district, near Love-
lock. Recently taken under bond
and lease by F. H. Mauser, N. F.
Holland, E. A. Ogilvie and other
Los Angeles capitalists, this thirty-
ton mill has been overhauled,
old workings repaired, mining of
ore begun, and arrangements made
for steady production. The vein
on the 125-foot level, showing sev-
eral feet of \$30 gold ore, is to be
vigorously developed.

Two strong veins of shipping ore
have been opened in the Butler
property at Goldfield, owned by
Mrs. Ada L. Butler of Los Angeles
and Nevada associates, according
to the management. Forty feet
from the portal the main tunnel
cut a six-foot vein of \$23 ore, and
fifty feet farther in it penetrated
a two-foot vein sampling \$190 per
ton. The tunnel is advancing in
commercial ore, and the owners ex-
pect to start production at an
early date.

DEEP WATER PROJECT INSPECTION PLANNED

(EXCLUSIVE DISPATCH)
STOCKTON, Sept. 27.—An in-
spection trip over the route of the
deep water project between Stock-
ton and San Francisco Bay will be
made by the Rivers and Harbors
Committee of Congress on October
4, next. The inspection tour will
be of a technical nature and in ad-
dition to the members of the com-
mittee there will be a number of
technical experts. Members of the
Rivers and Harbors Committee who
will make the trip are: S. Wallace
Dempsy of New York, chairman;
John McDuffe of Alabama; John J.
Kindred, New York; Nathan L.
Strong of Pennsylvania and Walter
F. Lindeberger, California.

RADIO CONCERT OF HIGH MERIT

Sunday Musicales Enchant KHJ Listeners

Estimated Winners Appear as Ensemble

Program for Today Ends at Noon as Usual

BY PAUL KENNEDY

Patrons of the tower studio of The Times yesterday were entertained by three concerts of unusually high musical merit, starting in mid-afternoon and lasting until late in the evening, in addition to the customary church services and organ recitals that always have been given from the station.

Ever increasing popularity has been greeting the musical recitals presented at the station through the courtesy of the Western Auto Supply Company, which inaugurated a month ago a mid-afternoon concert for Sunday listeners would appreciate this interval in their day of rest.

Starting at 4 o'clock and continuing one hour, a program of wide variety and excellent rendition was presented over the air by the Western Air Patrol quartet, directed by Edward Fitzpatrick, violinist, and including Joseph Heindel, cellist, Carl Angelotti, organist and composer, and I. Mendelsohn, pianist. Pleasant interludes in the instrumental music were given through the singing of Lenore Killian, contralto, who has achieved high recognition.

SURPRISE FOR LISTENERS

A surprise feature was the appearance at the studio from 7:30 until 8:30 in the evening of the Walsh Male Chorus, winners of the Elatedford, the nation-wide contest to determine the finest group of chorists.

This splendid group of singers gave one of the finest programs of ensemble singing heard in a long time in this vicinity, and particularly fine was their singing of "O Peaceful Night" by German and "Love, Like the Dawn, Came Stealing" by Cadman.

The big concert of the day was the two hours from 8:30 until 10:30 o'clock, when the Music Company, sponsors of so many of the stellar programs of the tower studio, presented a group of brilliant artists at their courtesy to the hosts of Radioland.

The group of artists who appeared before the microphone all have been repeatedly acclaimed. It included John Martin, who played a number of beautiful solos on the Gulbransen registering piano, as well as accompanying Ruth Pitts, soprano, and Keanoku Louie, talented Hawaiian baritone, and Victor-record artist, Jules Lepke, widely known violinist, Joseph Jean Gilbert, leading flutist of the city, Joseph Heindel, accomplished cellist, and Carl Jackson, harpist. The last three gave a number of fine ensemble selections, playing as the Gulbransen Trio.

RABBI DELIVERS SERMON

Dr. Henry L. Radlin, Rabbi of Temple Emmanuel of San Bernardino, was before the studio microphone at 10 o'clock yesterday morning with a splendid sermon to open the day.

The usual "Silent Monday" will be observed today at the studio after the close of the noon program, given from 12:30 until 1:30 through the courtesy of the Piggly Wiggly Stores, presenting Anna Grisham, soprano, and the Piggly Wiggly Trio.

With Saturday evening's concert as a climax, when Edwin H. LeMay, internationally recognized organist, will broadcast by remote control from the First Methodist Episcopal Church, the week is filled with outstanding programs.

"WHAT'S BETTER THAN CANDY?" PENS GOOD-BY, GOES TO DEATH

Unanimous Verdict is—"Nothing"

(Moss Photo) Johnnie Spurling and Dolores Durazo, who have Community Chest to thank for supply of sweets.

"U. M. CANDY is just the 'goodest' thing in the world."

That's what Johnnie Spurling and Dolores Durazo think. And they are not alone in their opinion, for the rest of their "family," forty-five in number, give their unanimous consent to this opinion.

Johnnie and Dolores are two youthful pals of Kiddie Koop, a Community Chest welfare agency. Kiddie Koop devotes itself to the care of dependent children, children who are orphaned, half-orphaned, abandoned, or whose parents are for some reason unable or unwilling to care for them.

Through the financial assistance of the Community Chest, Kiddie Koop is able to offer the children every advantage possible for a child to have.

Besides Kiddie Koop, there are 115 welfare agencies operating in Los Angeles—orphans' homes for aged, hospitals, clinics, nurseries—all receiving maintenance funds from the Community Chest.

In order that these institutions may continue their good work, more money is needed and the Chest therefore will launch its second annual appeal for funds from November 9 to 15.

More than forty men and women already have volunteered as speakers in the forthcoming Community Chest appeal, although the call for orators is only a week old. The 1935 campaign is to be tomorrow evening, Young's Market Company will sponsor the two hours from 8 until 10 o'clock, presenting Fritz Gaillard, soprano, Gladys Blackwell Pickering, soprano, Claire Melonino, leading concert pianist, the Arion Quintet, Jules Buffano, pianist and composer, and Uncle Remus.

Miss Nora Houston of Richmond, Va., recently traveled from Florence, Italy, to Paris, to exercise her right of suffrage in a recent electoral campaign in her State.

PENS GOOD-BY, GOES TO DEATH

Vernon Man Writes Note and Faces Fatal Gunfire

Monrovia Surrenders Self and Admits Slaying

Victim's Friendship With Wife Given as Cause

Penning a brief note to a sweetheart in Texas in which he intimated he expected to be killed, J. W. Suther, 37, of Monrovia, yesterday walked from his front door to the curb in front of his home at 445 S. Charles street, and a few seconds later crumpled lifeless on the sidewalk with three bullets in his body from a pistol fired by Leland Harder, of Monrovia.

Leaving the body lying by the curb, Harder drove back to Monrovia and surrendered to Chief of Police Quigley. Suther, the confessed slayer, said he had been too friendly with Mrs. Harder, and the husband, brooding over the matter for weeks, had taken the law into his own hands.

In his confession to Chief Quigley, Harder declared his original intention was not to kill Suther. "I called him from the house, told him he had wrecked my home and ordered him to leave California before sundown," Harder stated. "He protested that he had no money, and I told him to jump a freight. Then he grabbed me by the throat. He is a bigger man than I am, and I knew I wouldn't have a chance with him in a fist fight. So I drew my gun and began shooting."

According to Deputy Sheriff Keating and Morrissey, Suther formerly boarded at the Harder home in Monrovia. After he moved to Vernon, Harder took his wife to Chief Quigley, to whom it is said, she admitted she had been friendly with Suther.

Asserted Suther to obtain a warrant for Suther's arrest, Harder drove to Vernon yesterday morning, called Suther from the house and killed him. When the body was taken to the Sam L. Eastman undertaking parlors in Huntington Park, a love letter to Suther signed "Anna" was found in the dead man's coat pocket. "I didn't like to read that Mr. and Mrs. Harder had asked you to eat dinner with them," a paragraph in the letter read. "I thought he wouldn't even speak to you. Don't get in with her again. I cried for hours after I read that in your letter."

On the back of the envelope, Suther had written: "In case anything happens, notify Miss Anna Bush, 908 Bonmar avenue, Houston, Tex."

"Good-bye dear, if I never see you again. Love,"

The report was received Saturday, and investigating officers believe Suther, sensing the reason for his wife's wait, wrote his farewell message when he heard the Monrovia man call to him from the street.

NOT ENGAGED TO SLAIN MAN, GIRL DECLARES

HOUSTON, Sept. 27.—Miss Anna Bush, 27, of Houston, Texas, today declared she was not engaged to the slain man, J. W. Suther, and that she was acquainted with Suther, but that they were not engaged.

Miss Bush said she formerly lived in California and had been in Houston only a short time.

SEES LIMITED KILL BROTHER

(Continued from First Page)

removed to the White & Emerson Undertaking Company of Whittier, where an inquest will be held at 10 o'clock tonight.

Warren leaves seven other brothers and sisters, in addition to Charles A. Suther, who was killed at the University of California extension division. Methods of overcoming selling obstacles will be covered as well as the political, legal and financial aspects of argument.

This class meets Tuesday evening, Room 11, Woodbury Building, and registration is taken at 815 South Hill street.

DRIVER HELD IN AUTO COLLISION

Following an automobile crash in which a woman and a boy were hurt, a man was booked at Central Police Station last night as William Frye, 53 years of age, of 603 South Westmoreland avenue, on suspicion of failing to stop and render aid. According to Detective Lieutenant Bain of Wilshire division, he really is William Frye Tibbitt, 41, of 1818 S. Hill street, who was arrested at the Ambassador.

Frye or Tibbitt, who is at Sixth street and Commonwealth avenue at what is described as a high rate of speed, crashed it, was declared, into a couple in which Mrs. Gertrude Waddell, 42, of 536 North Westmoreland avenue, and Maxwell Slaten, 13, a son, were killed. Mrs. Waddell and Slaten both suffered concussion and bruises.

WOMAN'S CRASH DEATH TO BE INVESTIGATED

(RECEIVED DISPATCH)

SANTA ANA, Sept. 27.—An inquest into the death of Mrs. M. Moss, wife of a Detroit physician, who died last night, will be conducted by County Coroner Brown at Fullerton today. Mrs. Moss was injured in an automobile accident at Garden Grove Road and Orange-thorpe avenue yesterday.

Dr. and Mrs. Ross, 10134 Tennessee avenue, Los Angeles, were riding in a car driven by Mrs. Sanford's daughter, Isabelle, which collided with a machine driven by E. L. Flanagan, 1133 West Fifth street, Santa Ana. Mrs. Moss suffered a fractured skull. Dr. Moss a fractured elbow, and Mrs. Sanford and her daughter were not bruised.

WATTS WOMAN SERIOUSLY INJURED IN COLLISION

(RECEIVED DISPATCH)

GLENDALE, Sept. 27.—Mrs. Lee Watt, 46 years of age, 351 East Diller street, Watts, is in serious condition at the Research Hospital from injuries suffered in an automobile accident at Doran street and San Fernando Road this afternoon.

The car in which she was riding collided with a machine driven by S. C. Crumson, 220 East Tenth street. Mrs. Watt is suffering from shock, injuries to her left side and possible internal injuries.

Gus Martin, at annual meeting of Los Angeles Motorcycle Club, snapped as he made spectacular leap off Venice pier at sixty miles an hour.

ENJOY GASOLINE RODEO

Motorcycles Buck and Snort Through Trick Events as Club Holds Yearly Gathering

By a "Times" Staff Correspondent

VENICE, Sept. 27.—Motorcycle, snubbing for polo ponies and bucking bronchos, leaped into the air, and plunged into the sea here this afternoon, and all without serious accident to any of their riders. The occasion was the annual meeting of the Los Angeles Motorcycle Club, which was attended by 700 members with their families and friends.

One of the features of the meeting was the amphibious stunt of Gus Martin in the trick riding events. Martin rode his motorcycle the length of the Venice pier at sixty miles an hour, and took off into the water from a 20-degree incline. His leap was estimated at 125 feet. A special cup will be awarded him.

MOTOR POLO MATCH

The program was under the auspices of the Venice Amusement Men's Association. At 11 a.m. there was a motorcycle polo match between the first and second teams of the Motorcycle Club at Central Auto Park. The event was won by the first team.

Leonard Lawton won the motorcycle broad jump from a take-off of eighteen inches high. He cleared 64 feet 8 inches while making sixty miles an hour and stayed on his machine. There were three entries in this event.

Sixteen men competed in the bucking broncho event. This consisted of sticking on a motorcycle with the top-sided wheel. Kenneth Childs kept his seat 9.5 seconds and won.

CIGAR AND MATCH RACE

P. A. Bigby won the cigar and match race from a field of sixteen. The stunt was to pick up a cigar at the end of the course, light it and drive back to the start with the cigar burning. Bigby is the Pacific Coast circle-spinning champion.

Winners will be presented with silver cups by the Venice Amusement Men's Association in the paper and entertainment. Ray Barlow, captain of the motorcycle club, headed the cyclists.

ASK BONE-LAW CHANGE

The Sixteenth Street Improvement Association has asked the City Council to change the zoning laws to permit business buildings to be built on Sixteenth street from Western avenue to Seventh avenue.

A POULTRY PARADISE

Soil, climate, abundant water, and modern methods make Nuevo Gardens the poultry paradise of Southern California. The Nuevo Valley has been a prosperous section for many years and is a place of proven profits.

SHRIMPAGE HEAVY

Shrinkage in the poultry industry is a serious problem. The average daily consumption of poultry is 125,000,000 feet. The average daily consumption of poultry is 125,000,000 feet. The average daily consumption of poultry is 125,000,000 feet.

WIFE AVERS HUSBY HAS GIRL FRIEND

A wife has avowed that her husband has a girl friend. The woman, who is a resident of Nuevo Gardens, has been in the city for some time.

\$200 a Week

From chickens is a usual income for many ranchers in the Valley. And they have been making good money, showing by results that this valley is the poultry paradise of small and large ranchers alike.

Two Profits From One Investment

Many residents at Nuevo Gardens have combined raising with fruit growing and thereby make two profits from one investment. Crops this year are good, and the chickens, which have just been gathered, run at high prices.

Full-Bearing Orchards At the Price of Bare Land

We have for sale—to close a trust—a few tracts of peach, orange and olive orchards in full bearing, with abundant water, at a price that is a real bargain.

\$475 to \$550 an Acre On Terms You Can Easily Meet

A thousand laying hens in one of these orchards will give you a yearly income of \$3000 to \$4000, and the fruit from the orchard will give you an additional \$500 to \$1000.

2 1/2, 5, 10 and 20-Acre Tracts \$300 to \$400 an Acre

Nuevo Gardens is reached by paved boulevard from the important points of Southern California. There is abundant water, electricity, good schools and the convenience of a well-developed community life.

Proven Profits From Poultry Land

The man or woman seeking an income-producing investment can find it in Nuevo Gardens. The assurance that there is nothing experimental about the poultry business is that there is nothing experimental about the poultry business.

MAKER HELD ON DISTURBANCE CHARGE

Charles E. Tinsman, 33 years of age, 7710 Moneta avenue, was held on a charge of disturbing the peace. He was arrested by the police on the charge of disturbing the peace.

B-E Heartt—New Manager

MANY JOBS Uncle Sam is the most wonderful employer in the world. He is hiring workers in almost every line of human endeavor. He can use scientists, artists, educators and porch climbers. Included in the latest bulletin of vacancies in the civil service were 33660 jobs for cotton graders, kindergarten philosophers and elevator inspectors. That would seem to offer quite a range of opportunity for the job hunter. But going beyond the range of the job sheet, the government is able to use almost any kind of man if he is able to pass the examination that comports with the job. The thing is to find out when and where.

with the governmental institutions of the others. Here the spirit of contest would receive an application which would go far toward bringing the peoples of the world to a clearer understanding, each of the problems of the other, and to a more profound understanding, and probably also no other, can international co-operation for preserving the peace of the world be firmly established. That peace will not come through protocols and conferences. The trouble with this movement through the ages has been that it has always worked from the outside. The roots must be in the future. The roots must be firmly imbedded in the mental soil of each people and the

The Prison Board chairman adds: "Board action based on public policy, not on sympathy for or approval of Hutchings."

Undoubtedly the policy of the prison administration is based on experience and reflection, and it is with no desire to make the Hutchings case a medium for carping or criticism of such policy that The Times feels impelled to conclude that if the secret

against further indiscriminate paroling of dangerous felons. Justice in its working should be definite, not indeterminate. Let us eliminate from the statutes of California all uncertainty about the sentence convicted criminals will receive. No other single step in law enforcement will do more to make this State safe for law-abiding citizens.

Nobody really lives as long as a rich relative seems to live.

Many a man's character only lasts till the whitewash wears off.

Time is money, but a man should not risk his neck to save either.

It is easier to be a gentleman on a small salary than on a big one.

**Hooper Foundation Man on
First Program**

**Plagues and Paralysis Up
for Discussion**

The Pacific Coast Conference of health officials and health officers section of the League of California Municipalities opens at Long Beach today. It will continue through Friday.

Registration will occupy the morning. In the afternoon there will be a general session. Dr. Karl F. Meyer, director of the Hooper Foundation for Medical Research at the University of California

medical school in San Francisco, will speak on "Development of Modern Public Health Procedures." Tomorrow morning there will be a business session of the Pacific Coast Conference of Health Officials, with election of officers and reading of papers by representatives of Western States attending. The afternoon will be devoted to consideration of infantile paralysis. Addresses will be given by Dr. Walter Brem of Los Angeles, Dr. Meyer, Dr. Charles H. Halliday, epidemiologist of the California

State Board of Health, and Dr. W. F. Shepard, city health officer, Berkeley. Health officers will attend a dinner at the Virginia hotel this evening. Plague will be the topic Wednesday morning. Speakers will be Dr. Walter M. Dickie, secretary and executive officer, California State Board of Health, Sacramento; Dr. George Maner, pathologist, General Hospital, Los Angeles; L. D. Dyer, director, Bureau of Plant Industry, Los Angeles; and W. C. Sackeson, chief of the Bureau of Plant Quarantine and Pest Control, State Department of Agriculture, Sacramento, who will talk

on "Ground Squirrel Extermination." Harold J. Ryan, Los Angeles county Horticultural Commissioner, will lead the discussion. Rural sanitation will be the topic of Dr. J. L. Pomeroy, Los Angeles County Health Officer.

Tuberculosis, child hygiene and maternal welfare, public health nursing and county laboratories will be the subjects for consideration Wednesday afternoon. Communicable diseases generally will

be considered Thursday morning. The city council will discuss the problem of traffic and local public health in the afternoon. An all-day trippin' to Catalina Island will be taken Friday.

TRADE SHOW TO BE HELD

The Western Avenue Business Association will hold a merchants' trade and fashion show at Third and Oxford streets, from October 12 to 17. As the show is to be given in a tent, the association has asked the City Council for the necessary permit to conduct the exhibition.

Los Angeles for the \$10,000 Santa Monica American Legion World

prizes. The planes were required to land and take off at Clover Field, Long Beach, Griffith Park and Van Nuys under the rules of the contest.

shortly after the race was completed, showed that Lieut. E. B. Wilkins, flying Navy plane No. 31 from San Diego led the Class-1

The official results were given out as follows:

Class I, planes of 150-horsepower—Lieut. E. B. West, 47m. 39 s.; Lieut. L. A. Kings, time 46m. 39 1/2 s.; Lieut. L. V. Haynes, 46m. 38 1/2 s.; Lieut. Schoenhaar, 47m. 46 1/2 s.

Class II, planes of 150-horsepower or under—Eugene Daugherty, 46m. 7 1/2 s.; E. F. Montlie, 46m. 38 s.; Lieut. F. H. Barber, 46m. 3 1/2 s.; Bob Lloyd, 46m. 3 1/2 s.; Lieut. M. J. Smith, 46m. 3 1/2 s.; Ronald MacDougall, 46m. 4 1/2 s.; T. H. Polson, 46m. 57 1/2 s.; Lieut. C. M. Spenser, 46m. 54 1/2 s.; Lieut. W. G. R. Jones, 46m. 54 1/2 s.; Lieut. Charles Ewan, 46m. 23 1/2 s.

While reports from both the Long Beach and Griffith Park stations had been received, Lieut. Stedman had been disqualified. Lieut. Stead-

The race started shortly before 1 p.m., after the flyers had received final instructions from Lieut. D. M. Steele at Clover Field. Capt. Lowell Smith, one of the world's tight pilots, took off first as a pacemaker for the race and at three-minute intervals the other flyers were dispatched for the municipal airport at Little Rock.

on the west leg of their race. At Long Beach 20,000 spectators were present and to cap the planes and several thrills were given for them. Capt. Smith reached Long Beach at 1:30 p.m., and the second plane followed 15 minutes later. The pilots were required to land on the Long Beach field while the other two were in the air. The judges' stand to receive instructions was being lowered. They also were given a aerial view. The second plane, a biplane, was No. 48, landed on the planes, Nos. 49 and 50, and the race developed into a running contest between the two observers. The biplane landed and took off with a fair start. The airmen at the port door declared was the winner. The Long Beach judges disqualified the winner for landing in the wrong manner. They gave the 48 and 50. The judges were F. O. C. V. and J. W. Watson. Donovan and Lieut. Perry R. Watson.

At the Griffith Park Airport, the next station in the race, the first plane arrived at 1:50 p.m. The judges were J. W. Watson and F. O. C. V. and the race was a running contest between the two observers. The biplane landed and took off with a fair start. The airmen at the port door declared was the winner. The Griffith Park judges disqualified the winner for landing in the wrong manner. They gave the 48 and 50. The judges were F. O. C. V. and J. W. Watson. Donovan and Lieut. Perry R. Watson.

pushed photos by Edward Mosnier, president of the Long Beach Club, crowd in eight minutes' suspense. Then the fitted a new one. Another photo was taken. Then the observer in plane No. 46 who lost sight of the plane, taking five minutes to find it. No. 46 was disqualified at Grifith Park. The plane was cited at this airport for taking off the runway. The judges at Grifith Park were Lieut. Wm. Grimmer, Zanna P. Lee and Van Nuy.

FLY TO VAN NUY

From Grifith Park the planes continued to Van Nuy, returning to the airport at 10:30. The spectators greeted them. The last plane arrived shortly after 1 p.m. The judges of the race the flyers in Class 1 finished in the following order: 1. Flying plane No. 31; Lieut. C. V. Haynes, Grimes' Field, San Diego; 2. Flying plane No. 45, and the Schoonard of Pasadena, flying a D-H-4, No. 6. The judges of the race were Earl Daugherty of Long Beach; E. F. Montile of Long Beach; No. 46.

The official results of the meet are as follows: 1st, J. J. McLaughlin, Santa Monica, 10.4; 2nd, J. J. McLaughlin, Santa Monica, 10.4; 3rd, J. J. McLaughlin, Santa Monica, 10.4; 4th, J. J. McLaughlin, Santa Monica, 10.4; 5th, J. J. McLaughlin, Santa Monica, 10.4; 6th, J. J. McLaughlin, Santa Monica, 10.4; 7th, J. J. McLaughlin, Santa Monica, 10.4; 8th, J. J. McLaughlin, Santa Monica, 10.4; 9th, J. J. McLaughlin, Santa Monica, 10.4; 10th, J. J. McLaughlin, Santa Monica, 10.4.

proceeds. The event yesterday was held under the auspices of the Southern California chapter of the American Aeronautical Association, assisted by the American Legion and Santa Monica city officials. Mayor Horace Kernan at the conclusion of the event said that plans are now being made to hold a similar event at the Santa Monica Civic Center at Clover Field. An all-day program will be staged and it is expected that over 100 visiting pilots from distant airports will attend the affair.

Allot Space for Biltmore Show of Enclosed Cars

Space positions for the exhibit to be placed at the Biltmore in connection with the second annual enclosed car salon to be held by the Los Angeles Motor Car Dealers' Association, which will open Tuesday morning of next week, were determined at a drawing made by the distributors and dealers of the city yesterday, accord-

Thirty-nine inclosed cars of as many individual makes will be displayed and will be representative of the world's finest coach work and design, according to Roberts. The coming salon is said to be the largest single assembly of this

The official results were given out as follows:

Class 1, planes of 150-horsepower or more—Lieut. E. B. Williams, time 46m. 35 s.; Lieut. L. V. Sprague, 47 s.; Lieut. J. Schoenfeldt, 41m. 44 s.

Class 2, planes of 150-horsepower or more—Earl S. Daugherty, 46m. 7 s.; Lieut. J. Schoenfeldt, 49m. 39s.; Lieut. F. H. Barber, 53m. 4 s.; Bob Lloyd, 54m. 4 s.; Lieut. J. Schoenfeldt, 54m. 2 s.; Ronald MacDougall, 59m. 4 s.; T. H. Polson, 59m. 52 s.

Class 3, planes of 100-horsepower or more—Lieut. J. Schoenfeldt, 54m. 2 s.; Lieut. V. A. Grant, 52m. 4 s.; Lieut. Charles Ewan, 52m. 4 s.

These reports from both the Long Beach and Grifone competitions, said that Ronald MacDougall had been disqualified. Lieut. Stead said that since the Grifone race had not taken this action, and will

WORLD FLYER STARTS

The race started shortly before 11 a. m., after the flyers had received final instructions from Lieut. D. M. Steele at Clover Field. Capt. Lowell Smith, one of the world's first pilots, took off first as a pace-maker for the race and at three-minute intervals the other flyers were dispatched for the multiple laps around the Washington area on the first leg of their journey. At Long Beach 20,000 spectators

were on hand to receive the planes and several thrills were provided for the crowd. The first plane reached the Long Beach field at 1:14 p.m. and the second plane followed six minutes later. The pilots were required to circle on the Long Beach field while the observer judges' stand to receive instructions for proceeding. They also were required to receive a badge by the Long Beach Aerob. Club.

Two of the planes, Nos. 39 and 40, landed on the field at the same time and the race developed into a running race between the two observers. Plane No. 2 landed and took off with a flat tire. The airman at the post declared was considerably slower than the Long Beach judges disqualified these 39ers for landing in the wrong place. They were Nos. 37, 48 and 40. The 39ers were

From Griffith Park the planes continued to Van Nuys, returning

to Clover Field, where 75,000 spectators greeted them. The last plane was sent skyward at 11:30.

According to the unofficial results of the race the flyers in Class 1 finished in the following order: Flying Navy plane No. 31; Lieut. C. V. Haynes, Crissey Field, San Francisco, flying a D-H-4, No. 8; Lieut. J. H. Doolittle, Pasadena, flying a D-H-4, No. 8.

In Class 2 the five leaders were Earl Daugherty of Long Beach, flying a D-H-4, No. 8; Lieut. F. E. Barber of Clover Field, flying a JNX-1, No. 81; Bob Lloyd of Clover Field, flying a JNX-1, No. 82; Lieut. J. H. Doolittle, Pasadena, flying a Curtiss Jenny No. 83. Planes having more than 160 horsepower were classified in the second class, and the second 150 horsepower in the second

The official results of the meet are to be announced tonight at the Santa Monica Legion hall at La Monica ballroom. Santa Monica. A fyers' ball will follow the dinner at which city officials will be present. The American Legion of Santa Monica will be guests.

The meet yesterday was held under the auspices of the Southern California chapter of the American Aeronautical Association assisted by the American Legion and the Santa Monica city. Lieut. Horace Kenyon at the conclusion of the event said that plans are now being made to hold a

Similar meet on Atlantic coast. The first of the all-day programs will be staged and it is expected that over 100 visiting airplanes from distant airports will attend the affair.

RUTH SAGE - 447130

[illegible][illegible][illegible]

SEPTEMBER 28, 1925.—[PART II.] 15

A dark, vertical, textured surface, possibly a book cover or a piece of wood, showing signs of wear and discoloration. The texture is grainy and uneven, with some lighter areas and some darker, more worn sections. There are some faint, horizontal lines or scratches visible across the surface. The overall appearance is aged and weathered.
